The National Description of Genomic Research in and Pri straight.

Third State has been recently completed a study of
Then it is 'possible, by meass of Norsy, in maxmensors in the Regulation vera proficed of inferior serves to deter there greater four ends and a recent prices, from 1000 and 1921, and has made the distities of the study of the st gain to new what made them click, it was summarized to new what made the personal part to the what made to the personal part to the per employed rese from 3.91 in 1000 to a peak of a feat in 1920, declining to \$1,537 in 1921." You have heard that figures do not lie, but there is no dearing that, at times, they tell fibs. The investigation to which we have made reference revaled that, matted of we have made reference revaled that, matered of being \$1,000 better off, the man who made \$791 in 1000 and \$1.851 in 1020 were no more than \$64 to 1000 and 41,531 in 1200 were 90 more used.

the good: The purchasing power of, the 1913 dollar was used as a basis for this computation. In other words, the working men and women of the United Watara handled considerably more money in 1920 than they did in 1913, but got but little more in

HAY FEVER

Hay fever victims on this continent number more order articles when delivered, than 1,000,000 cannually, investigation has revealed—
and not one of them can see the joke. It has been as to how the crease came into vogue. Thirty years as and not one of them can see the plate it has been as to how the revue canse into types. Thenty years ag-continued that it all the rescues of these selected the Count of Cours little the red ones abstrate of contract that it all the rescues of these selected the Cours little the red ones abstrate of sold in rea countries; or other, but the problems jet the count's movings the relat breach it is not only to the countries of the countries of the countries of the countries of the red of the countries of the countr hay fover, but there can be no mistaking the real articles, as anyone who has ever suffered from an at-tack can youth. It has been discovered that golden rod, popularly supposed to be the cause of hay fever, is not the real of ender, that the majority of cases can be traced to the presence of the pollen of ragweed in the air. Some enjoy immunity from the ir-ritation of this pollen; those who are not immune be-come hay fever addicts and, if they can afford it seek relief in some happy clime where the ragwee does not bloom. Those who cannot afford to run awa suffer not only from the malady, but the queer sens of humor of their friends. There is no known speci-fic for the disease, a lot of patent medicine adver re the enterary. Seruma are being experim-with and it is recorded that they have notable ses to their credit, but at best they can bring relief and not immunity. Not until there is a success to their credit, but at best tray can oisse only relief and not immunity. Not until there is a war on ragreed will the malady be exterminated, and this Boold be everybody war. Hay lever is cotting the nation dearly, not alone in doctors bills and travelling expenses, but in 'interrupted employ-ment and weakened vitality. It is no joke, and never has been. It is-ab-ab-ker-chew!!! There goes the dard thig agaid.

LABOR HINDERING

LABOR HINDERING DEVELOPMENT are always talking about the bend of devel our own resources. For instance, the questioned, why should Central Canada be dependent on an coal mines when a large portion of Albert is underlaid with coal? As a practical answer to the Ontario Gover ent has co tons of coal, to give the movement a good or troubles at the mines, it is feared that Albert Afthur Wallbridge who may not be able to deliver the coal in full! bolidays in the City leaves

A GLOWING DEED

shines out now and then, some glowing deed that lights a whole page, says the Youth's Companion. A truck driver for a New York furniture company colted \$2,940 on C.O.D. delive ern it in. He was telli his employes when a telephone call came from hi wife who and there was a man at the bouse with some good news for him. It proved to be a wealthy manufacturer who had Jound the pocketbook. When

X-RAYS FOR COAL, GOLF BALLS AND GEMS

gress of Radiology in London that the X-rays wer greas of Radiology in London that the X-rays were now used to indicate the amount of sike and atone in coal, for the tenting of golf balls, detecting real gene frem "fake," locating flaws in steel and in wood for aeroplanes, and for the discovery of contraband goods. In the course of a paper read at the Congress, Mr. C. Norman, Kernp, of Edisburgh, said that when a person bought a pound of sugar he did not expect to set three-current masses and the other courter rabidistic

present account a pound of sugar ne did not expect to get three-quarters sugar and the other quarter rubbin. Why should it not be the same with coal, he asked The X-rays provided a definite, easy, and effective method of ascettaining what proportion of a quantity of coal was pure, find what amount rubbin. Once this had been done, it was possible to prepare the this had been done, it was possible to prepare it coal property for the market.

The object of testing golf balls with hard core continued Mr. Kemp, is to find out two things— the cores are spherical, and if they are concentric wit the outer surface. If this was not right the ball would

MISTAKES IN PANTALOONS

Perhaps, who knows it is true the Oxford ba started as a joke. Their appearance seems to supp that allegation. The balloon pants are funny. Th of course, the time was-and some people, gray hairs, can recall it—when trousers were creaseled.

Those that were made to order were delivered by the than they did in 1915, but not but atten more in gray hairs, can recall it—when trusure were reassess treum when they peet their canning. One thing they did get that was not revealed by the report of talker its peet the statement of the statement was an improved standard of living.

Standard of living

**Standard tailor ironed into cylinders without the suggestion of a crease. Ready-made trousers were then, as now, have creases, fore and aft, but at the customer's re-quest the accommodating clothing merchant irone these out so they would be as smooth as made-

error. There was much discussion of it. Some me who were charmed with the effect immediately ordere trousers with a crease—and the fashion was estal

HARNESS TIDES TO GAIN POWER

Writer in New York Herald Tribune Discusses Bay Of Fundy

By Tide and Is Called Ample

New York, Sept. 1.—(By 'Cana Press).—Hydraulic engineers of York are quoted by the Herald-buse an anying that the probe-to 100,000 horsepower by the the titles in the results from an engineering to t view, but is 'the most promi-derelopment in the electrical w in a decade,"

familiar tons as the most presisting of cereignment in the electrical world in a decident, and the control of t

and the low water in the lower pool is to be done by a system of gates.

"Mn. Cooper has found a solution for every problem considered with his scheme," said Mr. Darlington. "A his invitation I visited Eastport and made a careful inspection of the tides and the engineering possibility of generating power by then. I am con vinced that his scheme is thoroughly feasible.

feasible.

"The question has been raised wh
ther he could generate power by
fall of water only sixteen feet, whi
will be his maximum headway, i
though the tides rise as high as twe
iy-seven feet. The answer to th ty-seven feet. The answer to question is that a sixteen-foot is ample He will have an enore volume of water pouring over the separating the two pools and the ume of water is what will create power with the kind of turbine

It is not long since the binds were on the up war, and the best of the region of the region when the region of the region was a constant to be spin their noting, and here we are, almost the like of the region ways. In fact that of the region ways, fact that may of them at this time have been on the way south for several days.

It is the being hereful and the blocks are the region ways. In fact therefore, to be on the blocksus for left and the region of the project. It will be time, bettered, to be on the blocksus for

of Tweed. Wind-swept Scotch Tweeds for Young Men bring a breath of Fall that is irrestible. The Tweed has the look and "feel" of quality; there are several interesting new weaves and colors. Game-feather Brown is so called because it is woven, with a small gold fleck, to give the effect of feathers. Other new shades are Highland Fawn and Grecian Gray. Some of the coats are double-breasted, some single; sizes run from 35 to 40.

Winners of Second and Third Prizes Out of 16,000 who Answered-

Second Prize \$300

Won by MRS. R. D. BRUCE, Entwistle, Alberta. THE FABLE OF THE POOR HOUSEWIFE AND THE GOOD FAIRY COCA-COLA

Once upon a time there was a Poor House-wife, who lived from week to week in dread of an Ogre called Saturday-Cleaning-In-The-Summer-Time.

Summer-Time.

Now, no matter what expedient the Poor Moore, no matter that the poor that terrible limp that one day she refused to do another tap. "What!", roared Saturday-Cleaning-In-The-Summer-Time, "Not clean out your refrigerator? Not another word, or I'll summon my brother What. Will: The Neighbours-Say."

At this terrible threat, the Poor Housewife sank on her knees, and pulled open the door. There, cool and alluring as shade to a sun parched traveller, lay a bottle!

"Why!", cried the astonished Housewife,
"This is the first time that untidy Giant BunchOf-Fellows-In-To-Play-Poker ever left a full
one!"

With great haste the Poor Housewife opened the bottle.

POP!—Out danced the loveliest fairy, her akirts billowing and fluffing and swaying like

skirts billowing and fluffing and swaying incosea-foam. "I'm Fairy Coca-Cola," she sang, and her voice tinkled like ice against a glass, and her smile sparkled like snow in the sun, "Give me a person of the color of the same shadow of the sa

Believille ought to be proud and the men who con-ceived it and brought about the present very credit-able result deserve the thanks of the whole commun-

DR. GORDON OF QUEEN'S

The death of Dr. Gordon, principal emeritus of Queen's University, has removed one of the leading es in scademic circles of the Dominion and on of the most widely known Prosbyterian divines. His career at the head of Queen's was distinguished for age and clear thinking; he was a fine exceu-those thousands who graduated under him remember the fatherly interest he took in all his **boya** when they have forgotten some of the routine of knowledge they gained. Dr. Gordon encouraged them to think for themselves which after all is the universities and his years as head of th school will in days to come assuredly be recard among the times when a great many af men left to enter the great world. He did well by Queen's and by his country

A "POLICY" DISSECTED

ntent in the maritime and western p ed in Vancouver, the Farm and Home. In an article headed "Let Us Recognise the Facts," it declares that no tariff policy can be devised for the whole of Canada that will serve the interests of all sections alike, but that a tariff which is advanta-cous to one section must of necessity be of disa-yantage is others. It therefore proposes that the coutry be divided into four sections for tariff purposes— the Marltimes, Ontario and Quebee, the prairie pro-vinces, and British Columbia, an dihat each of the

ve the right to frame its own tarif The proposal has met with some favorable co ment in the western and maritime press. It is doubtful if those who regard it with favor have paused t consider what is implied in it. It means the "smashing of Coulederation." It means that instead of there being one Dominion of Canada on this continent there would be four independent dominions or col-onice. With four tariff systems in operation it would be impossible to preserve national unity. The prairie ion would as a matter of counse have a free f, and the maritime section would probably fiave a tariff for revenue only. But our protective tariff rould have to be protective as against the wester action and the maritime section as well as agains foreign competition assailing them by way of the two neighboring acctions, if protection were tughe rf-fective. Of what use would it be to restrict the importation of foreign goods from the countries of their in when those goods could enter Ontario and Que-by way of the maritime and prairie sections ing.

The discontent in the west and down by the ac-arises from the belief, that the people of those see tices are obliged to pay an unfairly large proportion of the cost of tariff protection when they pay for the long haul of manufactured goods from Ontario an if of manufactured goods from Ontario and "We are forced by the tariff to buy Canadinn goods," they say, "and you make us pay all the extra cost of bringing them all the way from the poin

of production to the point of co of production to the point of consum fair." As a solution of the problem Journal suggests that the excess cost tion of the outlying sections of the Do sorbed by the whole country as compe propose on those sections for the excess prices which they are required to pay for the protected Canadian goods owing to the long haul. Mr. Meighen has him-self endorsed the principle that the country as a whole abould bear a percentage of the excess cost of

whose another bear a pretentage or the excess vessel as transportation borne by the people of the outlying actions. Possibly it would be practicable to make some such arrangement that would be fairly satis-factory to the waterners and maritime provinces, so that a uniform tariff policy would meet their conditions and needs as well as those of central Canada.

THE DAWES PLAN

The first anniversary of the inauguration Daves plan for the repayment by Germany of her war reparations has just passed and it must be said that, in spite of some difficulties and misgivings. this scheme is necessarily subject to human falli-bility and limitations. The full effect of the working out of the details of the plan will be felt by luture Siderlits Fay will be one of the Indian institutions of the details of the plan will be felt by found and perceived one to trig, while I was other executions of the list details of the plan will be felt by found and perceived one to the list details of the plan will be more disturbed than retored by hated the cross much that be lung on, enspire the works. One has done to the wind the list of the properties of the propertie gations. So far there can be no complaint as to the gations. So far there can be no compliants as to use explosis in querk thimming. It appears that, the way the arrangements have worked cost. The fast down a mountain road at 40 miles an hour, she can that during the first year of the plan Germany has be a fast of the first year of the plan Germany has be a fast of the shown a trade deficit instead of a surplus, which is to one side of her was a cliff; on the other a per that during the first instead of a surplus, which is hereossary for the fulfilment of the terms, is made much of by some commentators. But competent obmoth of by some commentators. But competent obful westerner: servers regard this as only a temporary condition which will soon pass. The government is taking steps to improve the financial condition of the nation and build up the necessary surpluses, and there are en-couraging indications that the required objectives will be realized. The anniversary of the adoption of the plan must be hailed with satisfaction. It was a defin-ite step in the rehabilitation of Europe, and led the way to other demarches of hopeful augury.

Lady Crusher's reception was crowded to s tion, for the word had gone forth that she was exhib-iting a new tion that evening.

Several cast off lions, including artists from Chel-sen, complete with whiskers, long haired musicians and actors with blue chins, hung about gloomily oh and actors with blue chins, hung about gloomily of the outskirts of the crowd, the rest of the throng sur-ged wildly round a harmless looking individual atand ing borde the triumphant Lady. Crusher in the mid-dle of the room. They aboved one another about, and even jumped up on silk covered chains to obtain a etter view of the hero of the evening.
"Who is he, my dear?" panted a late arrived

owner to a friend. "Oh, really, don't you know? He is Henry Hig he champion cross-word puzzler of Lower Tooting

3000 FEET TO THEIR DEATH IN CONTROL CABIN OF CRAFT

Caught in Big Wind storm Giant Blimp Broke into Three Parts - Built in States After German Design - Details

Cambridge, Ohio, Sept. 3 .- The United States naval airship Shenandoah, broke in two over Ava, a small village near here this morning. One section is reported to have landed in a corn field four and a half miles south of Pleasant City. The other is said to have flown away in an easterly direction. The Shenandoah was on a flight that had been intended to include an extensive tour of the middle west. She left Lakehurst yes

Almost an hour before the ship was broken into two sect-Almost an hour before the ship was broken into two sect-ions she had appeared over Cambridge. For approximately three quarters of an hour the big blimp was seen to circle over the city apparently in distress. While the ship was over the city, a windstorm came up according to observers and the craft was said to have turned over partially on her aide a sshe drifted southward in a moderately strong blow.. Shortly after the first southward in a moderately strong blow... section came to earth at Ava, doctors and undertakers at Cam-bridge, Byesville and Pleasant City were called and immediate ly proceeded to the scene. It was some time later when word came from Sharon that a section had descended at that point.

THIRTEEN ARE KILLED

Washington, Sept. 3. — The air cruiser Shenandoah crashed in a windstorm eight miles north of Caldwell. Ohio. this morning, the Navy Department was informed in a message received at 7.38 The Cruiser Shenandoah's senior surviving officer, reported to Navy Department that thirteen were killed

Thirteen officers and enlisted me neluding Commander Lausdowne an Commander Haucock were killed i

THE "U. F. O." IN NOVA SCOTIA R. W. E. Burnaby, former president of the United Farmers of Onlario, has been visiting down by the Herald that "Nova Scotia has not benefitted by Con ederation, but rather has been injured to no small extent industrially and commercially." And the rea-son why Nova Scotia has been injured by Confederation is that the freight rates on Nova Scotia coal, fish and other products are so high that they cannot ers of Ontario, but we are forced to make those purces us untarno, our we are torred to make those pur-chases from Pennylvania. And what is true of your coal is true of principally all your production in No-va Scotia. Preight rates are keeping your products from the Ontario market."

higher than from Nova Scotta to Ontario. This is a big country. If easy access to the Ontario markets is necessary to the prosperity of producers in all parts of the country, it is tor be feared that picoperity will be long delayed. Mr. Burnaby sceems to think that the best solution of Nova Scotia's problem is the lowering of freight rates on Nova Scotia products shipped ing of freight rules on Nova Scotia products shipped to this province. That would be virtually a bonus paid out of the national treasury for the benefit of Nova Scotia alone. If such an arrangement were made, every other province would promptly demand the same treatment, and it would have to be granted to

between Nova Scotia and this province. It was Con-federation that gave Nova Scotia the Intercolonial. a road which has been a heavy drain upon the na tional treasury ever since it was built, but a road of vast benefit to the Maritime Provinces. Really, it is difficult to see how much better off Nova Scotia would now be if Confederation had never taken

THE MINERS' HOLIDAY

158,000 anthracite miners in Pens have "downed tools" and begu-tion of indefinite length. The They have quit work because the mine operate clined to agree to a new scale of wages by which the miners would receive an increase of 10 per cent, with an additional dollar a day for day laborers. This inse, the operators say, cannot be granted with reasing the prices of coal, which they regard as be-ng already quite high enough—an opinion in which

raising, the prices of coal, water tree to a make it in a letzed quite high counts—an opinion in which the consuming public condially agree.

As a matter of course, the miners' official representatives place all the blame for this trouble upon centatives place all the blame for this trouble upon tention to take advantage of the situation to get rid of surplus stocks at enhanced prices. In a parting shot, John L. Lewis, president of the United Mine Workers, decisted last sight that the questions, with labelity and incodes and with the product of the public for all a critice to unlocal at organization of the public for all a critice to unlocal at organization of the public for all a critice to unlocal at organization of the public for all a critice to unlocal at organization of the public for all a critice to unlocal at organization of the public for all a critice to unlocal at organization of the public for all a critical to the public form of the public form of the public interest."—

It is possible from that the operation with critical to the public form of the public interest. The public form that the operation with the public form of the public interest. The public form the public interest and the public form of the public interest. The public form of the public interest. The public form the public interest and the public form of the public interest. The public form of the public interest and the public form of the public interest. The public form of the public interest and the public form of the public interest and the public form of the public interest. The public form of the public interest and the public form of the public interest. The public form of the public interest and the public form of the public interest and the public form of the Workers, declared last night that the operators,

sufficient profits and to before the public to make less of them could say what the conversation haden in securities to where coal tength, but the coal blows about. However, but do not take it as securities where coal tength, but the coal blows about. However, but do not take the present altowates. They are not not finding, i. [1]. The convergence of the collapse are not to be a total of the uniform who have stopped the prediction of Thom any finding out of architectures originate that the coal state of the coal of t

The Small Hat Again Favored

Hats that compliment the face so prettily—those are the Hats that will be worn this fall. Offered largely in small shapes in felt and satins. Some are flower and ribbon trimmed, while many are offered with rhinestone pins.

The obtstanding feature of the fall hats is the new and leading color, BLACK PRINCE, an old Bur-gundy, very rich and attractive. Browns, Tans' Rust and Purple will also be popular.

I have just returned from attending the Fall Mil-linery Openings in Toronto and New York City and have all the new styles which will be on display at my FALL MILLINERY OPENING

et there be harmony in things essential-things not essential—Charity in all.

Russ the "neadistion of "Hamlet" in modern co plow's the thing.

CANADA'S TRADE Canada and the United States are billion dollar neighbors. Trade figures issued from Washington that week show that in the American fiscal year ending 30, Canada bought goods totalling \$517,580,-000 from the United States, and sold that country goods for a total of \$429,276,000. That is more than a half billion passing each way, and reveals the United 66 States as by far our best merchant and our best customer. The United States furnished us in that ward, and his mem hope for the future. fied with 84 per cent of our imports and took 71 er cent of our exports.

Coal was the largest single item of our i

was the largest single item of our imports in are sound codes, and every poung person may take are sound codes, and every poung person may take are sound codes, and every open green may take are sound codes, and every open green may take are sound codes, and every open green may take are sound codes, and every poung person may take are sound codes, and every sound codes are codes. The code of the co shows a big drop, but it is not nearly enough. We have plenty of coal in Canada to keep us going for yours. In the Northwest there are millions upon milne of tone of anthracite waiting to be due out of lions of tons of anthracite validing to be dug out of the earth. All it nods is railway and ship outlet. A few years at \$55,942,000 each would provide all the transportation facilities needed, and the rest would be sheer "velyet." Sort hauls can be provided to the Pac-ific coast and thence the coal can be brought by ships

r cities in the East.

fraction developed, so it is natural that American manufacturers abould have an advantage in their pro-ducts for the present. But there is no sane reason why we should pay out millions for coal when we have abundance of it'at home. Oil resources are some what in doubt as its extent but even they have yet to be explored as they should be.

The year's trading with the United States saw one good feature. It was a drop of about \$52,000,000 in our ecompanied by a increase of about \$5,000, exports. That is gratifying, but not satis fying. With our wheat, which crosses the border even face of the Fordney tariff; with our forest resour toe and coal and a dozen other sources of natural the United States into a favorable one of several mila. Our exports should eventually, at least, double imports, where that country is concerned. That is the logical trend, for in a naturally rich nation like this, there is no reason why we should not produce a surplus for sale of twice what we need to buy.

This is in no sense a belittlement of Canada's en We are doing well. But we can do better When that possible betterment runs into ancounte one of dollars, it is worth examining. cidentally—Canada needs a vigorous immig

policy so that ahe may attreet the millions of new citizens necessary to do the work there is to be done in this country.

More than half the world's gold is in the United es, and so it can safely be assumed tha ure has been over-rated.

LOSSES BY MILLS

For several years conditions in the Canadian tex-tile industry have been very bad, and the annual report of the president of Canadian Woollens, Limited, indicate there is but little prospect of improvement in the near future. There is no dividend for the shareholders. The sum set saids for depreciation of plant has been perforce reduced. Owing to the successive failures of the industry to carn dividends, the direct tors have "refused to accept any remuneration in the way either of salary or directors' fees, and have given way either of allary or directors (sox, and have given must hereity of their insex and erin in a report. Canadian Entirel Zendyrew Munthy: or to keep the business in cyrentics until the indus-try falls on better days. During the part, yet new types one are still Ca offiche has been desireding eval working milds have been compiled to cluss their new cut rates by posters which conclude, "Caba it dones "after a have right to occition their circles you drow for five minnes." Some of the striking cone." And the report solds that "own of these mild shared been desired for meany years, and their initial can and their point making the posters up with the poster of the striking of the strike are not that the point making the sign reset. "Such was been the mild are bested!" The boses thereof the strike the strike the strike are been the strike are been the strike the strike and the strike the strike are been the strike are the strike the strike are been the strike are been the strike are the strike are been the strike are the strike the strike are been the strike are the strike are the strike are been the strike and the strike the strike are been the strike are the str where these mills are located." The losses incurred by where these mains are foundation in the most included by the woollen milks of Canada during the past five years. Philadelphia Ledgeh:

DISCUSSING TAXATION

The Citizens' Research Institute of Canada has as ounced its third Canadian tax conference convention to be held in London at the end of the month.

The programme is full of interesting subjects.

Taxation is, or should be, about as engre opic for Canadians just now as anything that

There is no doubt that business and a dotte outer source with throughout the Dominion has found the burden of the present taxaion almost intolerable, and that the ption of old time prosperity has been greatly retarded by this factor. At the same time it must be e

> The Institute is convinced, he F. B. Hayes, its President, after carefully studying the question and from the experience of other countries that considerable reduction in taxation can be el fected without lessening the quality of govern

tstanding obligations. It also believes that such reducti

Until there is an insistent demand for I thods in government and for reduction in taxation, a tion will not be obtainable, but just so soon these points become good polities, no matter party is in power, a reduction will be effected.

With these and other vital problems to be d ed in the open forum offered by the cor latter abould result in a better understanding amon all parties concern

The Extra Process that Safeguards the Men Who Break Records

The greatest racing honors ever won in tire history have come to Firestone through Gum-Dipping.

At the Canadian National Exhibition, Fratance Balloon Gum-Dipped Cords demonstrated their extra strength and safety by winning the most important race of the meet. At Brandon, Calgary and other western tracks, this summer, nelv seponds were set on Firestones.

In the International Sweepstakes at Indianapolis, May 30th, a new world record was set on Firestones—101.13 miles per hour, for 500 miles—without , tire trouble.

It was Gum-Dipping that made the speed kings confident on the treachero turns, and carried them through the orde with far less than usual fatigue.

Drive with perfect confidence in your tires. Enjoy new steering and braking control, and the easy riding that saves you and your car from shocks and vibration. Have the nearest Firestone Dealer apply a set of real Balloon Tires—Full Size! Gum Dipped! Built only by Firestone!

H. B. A.

THE GREATER GIFT THE GREATER GIFT
I wish no wealth or proud estate—
No world-acclaimed print;
For simple love hath made me grea
In a dear woman's eyes.
There are no worldly gifts above
The beauty of a woman's love.

For Fame the glory and the gleams Friends, and the scorn of focs. Dearer to me the humble dream, And from Love's hand one rose! And where my lowlier lot shall be, Only Love's arms to necklace me.

For Lore his own rewarder is,
The flowery world along.
For Lore the thorn is sweet to kiss,
And toil is but a song.
Wherefore, I seek no proud estate,
For simple love hath made me great.
—Frank L. Stanton.

GEO. B. JONES PHONE 743 How the Allcast **Moisture System** saves money

Tests have proved important savings in fuel where the wars air from the furnace is properly moistened—the saving has reach ed upwards of 20 per cent.

The Hygienic Vapor Pan in the Alicast is designed to supply the correct amount of natural moisture required for health and comfort — atmosphere that protects the family from winter ills.

Other exclusive, fuel saving features of the Alleast are the free-draught Shell-bar Grates which insure perfect combustion, and the fuel-saving air -blast w hich burns the smoke and gases.

The All-cast is easily oper-ated. It burns soft coal and all other fuels equally well. It is reasonably priced. Come in read let us show you its samy important fea-tures or write for complete details.

There is a size and type of Happy Thought Furnace for every kind of home.

Watch Out, Madam!

When beauty is at stake use Palmolive

OR your sake and for ours, we must combat a false idea.

Some people, we learn, think ordinary soaps, claiming to be "for the com-

That is wrong. They don't. Palmolive complexions come only from Palmolive. In the old days you were told, "Use no soap on your face." For soaps were

Then came Palmolive. It was made of cosmetic oils, of olive and palm oils famous as beautifiers since the days of Cleopatra - combined in a secret beauty blend. It was made to be used freely, to be used lavishly on the skin.

Then note what happened. Women tried it, got amazing results, and told others. Palmolive became the leading toilet soap of the world. In France, the home of cosmetics, Palmolive is one of the two largest selling toilet soaps. French women

have largely discarded French soaps for Palmolive.

The reason is this: Palmolive is a unique creation, based on 60 years of soap study. It is a scientific soap. A soap made for ONE purpose only . . . to foster good complexions.

It is not recommended for laundry work, nor even for fine fabrics. To make it good for those things, we should have to reduce its cosmetic qualities greatly. And good complexions are too precious to be thus endangered.

So we ask you, madam, when seeking a soap for fabric cleansing, to get a good laundry soap.

But we urge you, above all things, when beauty is your aim, to use Palmolive. Palmolive is not claimed the only great complexion soap. We know of two others. But they cost you 25 cents, while Palmolive sells for but 10 cents . , . no, more than ordinary soaps. Enormous production brings you this modest cost.

Wash, cleanse, launder with any soap you wish. But for your face . . . take care! ... use Palmolive, a soap you know is safe to use. It is nature's formula to "Keep That Schoolgirl Complexion."

IN PARIS

French women are discarding French soaps for Palmolive

Paimolive is dody one of the two greatest celling tollet scaps in France. Parisian beaties are glad to pay almost vince as much for a cake of Palmolive as Canadian women pay, dnd, in many cases, three times as much as for their own French coaps. Remember this when tempted by "French" claims for scaps.

SPEED UP. PLEASE

Of Canada's future as a great wealth producer th an be no possible doubt. But to Canadians of the rescut day the main point is that the acceleration of present day to main point is that the acceptation of that production just now would go a long way to ease the burden of our war debt and to make the whole country prosperous. The policies that will speed up general production and the translation of the potential wealth of the country into actual wealth are. lvery obviously, the policies to which Canada must ad-

took all the white strong and made a raixed with pieces of speuce iwica.

How sily of there! I could water rion any of their least water them firing with to ten nesting pairs, its etransers of white being quite easy to follow with the napid eye. Following their pathway through the air was needless, for their nest is more white than anything in the

responded the other in the fit. Every roll other class: [not the tips point, They was not as a second relation of the control books, were scired from the lake yesterday, just be-cause the Bluejays made such a telltale holler about my sneaking down the path. I wish they would mind their own business. And, after all, I sup consistent, for they were very much on the job, when they saw me stealing down the path, all bent up like

> > I'm weak in every close But make no weak apology, I'd sooner be by nature cha Than work, when I may play.

WHY AN ELECTION IS NEEDED

The feeling that a parliamentary election and ew House of Commons must prove a good thing fo Canada is evidently general throughout Canada. The Vancouver Province, a paper of Liberal traditions, if its reasons, as out, is that during the late or ndertakings from coast to coast on so liberal a cale, betokening an election, that to have quivalent all over again. Everything would be in an thing for the country's good. Thus would be "aste time and money." The article then proceeds: ced a change at Ottawa. This does not no nean that we need a change of Government. But we seed a shake up in the House of Commons. So far of Government enterprise and initiative are could the country is in the doldrums. The Govern as so meagre a majority that it dare not be age the Progressive temper at the present time is nega-tive rather than positive; so nothing it done. Wha Canada requires at the moment is a Government ither Con ervative or Liberal, with a good working nity. We need a strong Government-somethi we have not had for years-one with initiative and nd make an earnest effort to find an adequ ion. Of frifting and letting things slide we have had nough to satisfy us, for many a year."

THE FARMER AND PROTECTION

this creates prosperity on the farm by improving th

ome market. The Tribune's articles of Western farmers that lower tariffs will cut their cos in his heart that lower tariffs woul to Canadian industry under present is the only course open to Canada, and that, while they will benefit in the long run, the tariff cannot bring them immediate, advantage. It is truth, but it is unpulatable. Mr. Meighen's courage and candor will win him respect, even II it fails to secure faight be won by picturing a free trade paradise.

bity and garrinous animadversion continues to rise on the creat of time, with the aproach of the 29th of October, one may easily expect to hear Central say, "Number, please, but when do the polls open?"

Governors of Hospital Heard Good Reports

When Is Car Parked?

When is a car parked?; When is a car parked?:
If the machine is the prescribed distance from the curb and stationary, it is parked, or is the machine not considered parked wille some one is in charge of it?
The statutes do no clear this point which was ratised by a Highway Officer to-day in jocular conversations.

This Highway Officer stopped as macaine near a fire hydrant to-day to allow a paisenger to step into a store for a minute. kind lady informed him that he was parked near the plug and liable. The woman had evidently mistaken the officer for a tourist.

way on they on BIT There are two reasons, pro-bably. One is the strange lure of anit water; a love to some men quite irresidible. The other reason is found in the yearning for peril that is a part of the makeup of a few of us. None of these rash adven-tures adds anything to human knowledge or human happiness. They are footless and fruitlems. But perhaps they bring a sense of satisfaction to those of and a certain enthanasia to those who fail.

There may be nothing in a name, but a boy Gunn is shooting the best golf in the United State tomateur championship matches.

DRIVING PERMITS

orge S.\Henry, Ontario minister of p works and highways, addressing the Canadian Auto-mobile Association substantiated the intimation that next wear it would be necessary for all applicants for automobile driving permits to pass an examination. Subjecting the thousands of motoriets in the provto an actual driving test will take considerable time, the minister of highways recognizes, and he ex plains that it is not the intention of the covernmen to withhold permits until the examination has been made. Driving permits will be issued, but only on the understanding that the applicant must present elf for examination whenever called up that failure to pass the examination will result in the cancellation of the permit. It is sound legislation deped to make for greater safety for both motorists pedostrians. Automobiles kill more people in Ontario annually than do firearms. It is necessary to setario annually than do firearms. It is necessary to se-cure a permit to purchase and carry a pixel, but any person with the wherewithal with which to buy a "Too many mol nome car has been permitted to drive his juggernaut on the public highways. Familiarity with the mech-on the public highways. Familiarity with the mech-a result of having right cylinders in the cugies and but temperament is, and it is in this regard that the on may fall abort of what he expected of it. ng officer will have no way of judging Ottawa Journal swer them sensibly, but put to the actual test in a 'tight corner,' the outone might be disastrous. Howproval of all motorists, in whose interests, as well as the interests of the walking public, it is being brought

Paly for your side and not for Be a good winner and a good ictory and generous in defeat. Take all decisions without question

TEETH 3100 YEARS OLD

Cherary uros, dating from about 1200 B.C., have been found under a large flagstone at Frashwate west, near Tembroke, Wales. Professor Sir Althu Keith, to whom the human remains in the ura-submitted for examination, declared them to be thos submitted for examination, declared them to be the of a boy about twelve, the sex being inferred for the size of the teeth. The white state of the grow

the are of the teeth. The while state of the growth lines in the boses and the crowns of the uncut pri-meter teeth indicated the age.

The only strange object, says the famous anthro-pologist, is the tooth of a boar, which might have got mixed up with the human remains when these were gathered and placed in the urns.

Both the rollroads and the trolley lines need upple up to the motor but and take it into partner ship.-Chicago, News.

BOLSHEVISM

Mr. James J. Davis, United States severeiery of lab-or, speaking in Teronto, advised Gazada to keep out "medierable innegativa" and be even angusted that it might be worth while for this Dominion to adopt it might be worth while for this Dominion to adopt the state. This type of undestrable immigrated which Mr. Davis has especially in mind was the communic of whatever nationally. There can be no doubt that Canada is somewhat lonient in the "red" element. Wherever the frields fing liss in bot found full lib-ercy of opinion, and the privileges affended by the which were founded. which works in secret. Its mischief is done not in th open but in devious ways known to the foreign plot ters. No quota law would serve to end the mensee

toston of communium re-establishing private enter prise on an ever-increasing scale and encouraging, b every means, the entry of foreign capital, particular cvery meant, the entry or reverse representations is keep up the attempt to bring about a world revolution through the discemination of propagated which is ne longer acceptable at home. There are hopeful signs towerer, that the game of bluff cannot be much to gare of buff cannot be much by all the propagate when the game of buff cannot be much signs to the propagate when the pass of buff cannot be much signs to the propagate that the propagate is the propagate that intelligent and well-informed races as an experiment which has failed to justify itself. The peasants Russia are gaining a stronger position in the regulation of affairs and the economic needs of the coun try demand the abandonment of theories which hav been found to be untenable. With that abandonmen a business revival has set in in Russia, and, with th business revival, it may be taken for granted that th people are awakening from their nightmare and get-ting back to the practicabilities of the situation. In undeveloped countries and among primitive people government may be kept up for a time, but the in dications are that Russia is beginning to recog the hopoloseness of its plan for world revolution.

MR. CRERAR'S NEW PLAN

"Monited Easter) "Chooled Heart Sake PLAN (Monited Easter) "Undoubtedly the country is looking for a lead, a Wr. Crear states, but it has looked in vain to the nember for Marquette, if it has looked to him a ill, for any rign of a constructive policy, much les off, for any sign of a constructive policy, much lessor one that would warrant the use of the great wor courageous." Here, then, is a prophet who is him eff without vision; not, perhaps, a blind leader of be blind, but one who, having divested himself or the state of the state be blind, but one who, having unvesce a line be mantle and responsibilities of leadership, now po es as the proposent of a programme that is probabl is meaningless to him as it is to others. The on hing clear is that Mr. Crerar has been disturbed b sublished statements representing him as the advitate of a Liberal-Progressive union. Is it a case of Liberal-Progressive union. Is it a case of the galled jade wineing? If not, why is he so restive inder an imputation which, at any rate, does smal-instice to his party, having regard to the parliamen ary record of that party? Now , in his cagerness to on Liberale and Progressives and says: "A plagu o both the "Houses." The Progressives have abandoned their ideals and the Liberals have failed to imple nent their pledges; their course has been me refliciency and drift. For the Conservative party, surse, Mr. Crerar has no good word to my; he is ormed the Regina conference that "I ame no hope of Conservative administration making any improve-ment." Having thus disposed of all three parties, hi own included, Mr. Crerar proposes a new one, s platform composed of old and mostly discarded Lib ral planks, painted over and adorned with the wordlong, but it is not proportionately clear or helpfo

SCIENCE AND THE SOUL

will not be found in Mr. Crerar's plan.

Perhaps he has; but it is quite probable that frequently heard that there is not, and cannot any conflict between religion and science; still, any conflict between religion and science time has not come yet for scientific demon take the place of religious faith.

Meighen on the other hand able in the space of a few

Two Hamilton elergymen the other evening engaged in a public debate on the question "Is Communiam a menace to the present social order?" In one respect the debate was disappointing, for the report says "there was no decision."

There should have been a decision. In fact, the can be only one answer to that question. The dispute was not as to the merits or defects of Communism but whether it is a mease to the present social or-der. Now whether Communism be in itself good or bad, precisable or impracticable, there can be no doubt whaterer that it is not in harmony with the present social order. It cannot co-crist with the preent social order in the same community. If there he rivalry between the two, either the present social or der must continue or it must be supplanted by Comsm. The Russian Bolshevists, having overthrow the old social order, attempted to build a purely Con stic state upon its ruins; but they failed, and are now gradually, bit by bit, restoring as much of old social order as is accessary to keep the coun try from going to the dogs.

Communism is necessarily a menace to the presential order. And the reverse is also true. Those who have faith in the present social order must of a sity be antagonistic to Communic

HYDRO COMMISSIONERS

matter of interest and expectancy hardly le important to Ontario people than the question of the general federal election is the selection of the men who are to fill the two vacancies on the Outario Hydro-Electric commission. There is good reason for the anxiety with which the announcement of the gov-Anyuro-Liecture commission. There is good reason for the anniety with which the ansouncement of the gov-ernment's choice is awaited. The fate of the Hydro-Electric project may depend upon the character and calibre of the new commissioners (one of whom wil be the successor of Sir Adam Beck in the chairmanbe the successor of our Adam Seck in the chairman-ship) and their attitude (owards the principle upon which the project is based, the principle of public ownership and operation of public services. The names of many prominent citizens have been men-tioned in connection with the commissionerships but

reduced the national debt. The facts are that when the King Government came into power in 1921 the national debt was \$2,340,878,994. According to the ofnational debt was \$2,340,878,984. According to the of-ficial statement on August 31 the national debt wa-\$2,266,923,660. Where is the reduction? There can be no reduction in debt and taxation without strict momy and economy has not been a feature of the ment administration.

SEEING CANADA

The party of British journalists now in Canada is one of the most representative companies that ever visited this country. Each of the dozen members of the party is a trained observer, with years of practical experience in journalism, representing one of the most influential daily newspapers in the British Isles. most influential daily newspapers in the British liter. The newspaperness are touring Canada as guests of the Canadian Paclife Railway Company, having come on the special invitation of President Beatty. It is not an advertising scheme in behalf of the C.P.R. the visitors are not asked or expected to say any-thing in praise of that corporation; the purpose of their visit is to see the country, to obtain some firsthand informaton regarding its natural resources and estrial activities, and also its potentialities as its industrial activities, and also its potentialities as a field for British emigration and investment. In ex-tending its hospitality to those representative British journalists the C.P.R. is therefore doing a national service of no little importance, and deserves cred for its public spirit and enterprise.

Already the visitors have seen much of the Mari-time Provinces, something of Quebec and more of time Provinces, something of Quebec and more Ontario. This week they are in the prairie provin and next week in British Columbia. On the retur journey, they will probably no taken into Norther Ontario and abown the remarkable mining industri-

LODE

see what should have been done, then develop the

hate directions, But I like birds in winter. They are such a relief to a poor gloomy day. We put off getting up, just a as I have put off starting these directions, and there the garden, on a snow sprinkled sol other, sits a perky this or that kind of a bir ts a nuthatch—looking the exact opposed. They do a fellow good!

Woodpeckers like thick suct, while

ece, so they can peck at it. They do not like the rumbly kind.

To any one wanting a complete table of bird foods. Nature Lore will be glad to supply it, through the editor, but this list is sufficient maon of the year.

Juneos like crumbs and bird med. So do soldfir shes, purple finehes and many other birds. Chicadees like pork rinds, so buy your bacon with the rind on, then hand out the atrips. The foods not spoiled by the warm days will suit best for now. Some dog biscuit, broken into big and very crumby pieces does fine.

Walnut meats chopped up fine, sunflower seeds birds in autumn, especially in bad weather. They come for the food more and more, as the days get colder and food harder to find, so, when food is plentiful in the fields, just 'remember that your food a plen-tiful in the fields, just 'remember that your food store is a reserve stock and let it go at that. The birds know it is there. It is their bank account for

REACHING FOR THE MOON

With due respect to labor aspirations, there is a ways a certain proportion of futile resolutions passed at Labor conferences. A majority can generally be ound to pass those exp iew of impressing the public, but they are merely mpty gestures. For instance, a grandiose resolution was adopted by the Canadian Tabor Congress at Oi war the other day calling for a "world union, con rising all trade unions in the world with a central con rol empowered to call a world strike and assess the ntire workers of the world to finance rords, but just words.

The idea of unifying different classes of works

ne organization with the view of bringing about several industrial collapse in the event of one section of the group having a grievance is not a new one, an at the group having a guerance is not a new one, and shen attempts have been made to writ fout in practionanch an life it has utterly failed. A world junjon would be a cervily excite the weight synchigh theory. It is summe that if the hydrospherite symphyces in the Anguenties, or if the shormachers of Ogrimany, asked for shorter hours, the implement makes of Cannola, the Witer J. S. horter hours, the implement makers of Canada, the lock laborers of Great Britain; in fact every worker on earth would walk out and bring the entire indust risl system to a stop to enforce it; or, alternatively, so many millions would come out while so many mil lions - remained at work to earn wages to pay levies to keep the other fellows from going back their jobs till they had won It can't be d

Well Known People In Film at Griffins

At Hamilton on the 21st, 22nd, 23rd and 24th inst. the 17th annual convention of the Dominion Assoc-iation of Fire Chiefe will be held. Seldom is seen such a combination of cast, production and story as is "The Great Divide," the Metro-Gold way picture which opens at the Orif in Theatre tonight. The story which is from the famous iation of Fire Chiafs will be held. An extensive programme has been prepared and many fire chiefs will be in attendance. Chief W. J. Brown of this city will no doubt be an attendance at the convention.

Yesterday's temperature was five and A degrees higher than for the assume lamms date last year. At an early hour don, this morning a thunder storm passed the over this locality but was not by mouth any means severe in the city. Some Tae rain fell here. Figures of the tem—Eagles perature for the two dates are as there is follows:

mond.
The slory starts in a small New England village and travels from there to the Painted Desert of Arisona. It is a psychological story of a woman's pride and a bettle between ler conscious mind and her subconscious instincts.

Dominion of Canada

Fifteen Year 41/2% Bonds-Due September 1, 1940

Price: 97.25 and interest, yielding over 4.75%

To Business and to Professional Men

As previous experience has taught you - there is no safer place for your surplus funds than Dominion of Canada Bonds.

They are as good as Cash—the supreme collateral—to say nothing of the very desirable interest yield, meanwhile.

It should also be said that every previous War, Victory and Refunding Loan issue of the Dominion of Canada is now selling above the original price—some in fact at a considerable premium.

Denominations: \$100, \$500 and \$1,000

Orders may be telegraphed or telephoned (collect) through your usual bond dealer or through any branch of any chartered bank in Canada.

ST. LAWRENCE POWER

is melancholy interest attaching to the put of the report of the Ontarib Hydro-Electric ligation of the report of the Ontario 11/400-Electron Power Commission relating to the St. Lawrence de-softpoment acheme. It deals with the great project to which for Adam Beck had devoted his latter days, and on the secomplishment of which he had brough JR Liu serenyh and ability to beat. Unfortunately, All his seemanyh and shabity to beat. Unfortunately, the vision and organizing powers of the great Hydroc chief are no longer evaluable to the people of this reversion. These dengalty champion of public rights is going, but he leaves behind fin the force of his superiod cample and documentary details for the guid-ance of those why are called upon to take up the responsible task. All that has been achieved by the Hotor commission, under the lacetonism of the taste. on, under the leadership of the lat Bir Adam Beck; has been carried out to a practical epticism. The St. Lawrence scheme share the fate of those which have preceded it, but which have, in spite of criticism and active hostility, sucis conserted, wheth to the cultivation of the spine-jet, all the principal milery companies are cultivationally disturbed projects by the completed if the full commission. Fig. 1s the section, and several texture will be put into small the project can said will be completed if the full commission. Those will enable if all manner of spots arranged spine principal in broughts to best. All the said will be companied by experts allowance. In come technical details have been worked out; the enable intension prolonged stays will be made, the tracking registering where the contribution of more problems of the companies of the companie with the St. Lawrence, to the incalculable benefit of for touring the dominions.

Sir Alfred Mond advises the allocation of a va-

It is nathetic that such a splendid opportunity a sents itself should be neglected. "Millions of horses are running to waste down the St. Lawrence," ed Sir Adam Beck in one of the very last of his public utterances. This power is badly needed now and will be still more badly needed as time goes on How long shall the waste be permitted to continue? men was governmente and people get together in a year it about he a simple matter to create public en constructive effort to realize the glorious vision? thuisans for the project. After all, the moreon of Nov data the immense driving force of Sir Adam failure of the cumpain depends upon the stitude of Berk's personality has been removed, it becomes consumers. In their hands ruts the ultimate fate once investment has been the companion of the co When will governments and people get together in a Now that the immense driving force of Sir Adam blacks personality has been removed, it becomes the been presented by the property of the second property of the property of the second
POLICE TO ACT

The threat of communism in Great Britain has tal on a graver aspect with the attempt to corrupt the soldiers concentrated on Salisbury plain. poince rear a campage of wretain extremists, like the Parece member of parliament, Saklatvals, appear to be taking leave of their senses in the license with which they are expressing their revolutionary opin as the British temperament is to the ideas of the alien plotters, the very persistence of the propaganda will have its effect, if it is not checked. Apparently, If the police take a hand in the matter, the situati

The methods which succeeded in dragging Bussia into the mire will not work in Britain, and mee of the Saklatvala type are simply defeating their own ends. Solutions, type are simply defeating their own such. In second of these modelling unless some radical change in the control of the second of t

BUY EMPIRE GOODS

Philip Cunliffe-Lister, president of the Brit to compensate the Old Country for its loss o a note to compensate the Old Country for its loss foreign trade is the development of imperial market for the benefit not only of Britain, but the dominion themselves. British buyers should give voluntary pr ference to British goods and so assist the Empire to the realization of the object in view. Over in the Mother Country special efforts are being made to educate the public to the adia of buying goods o sible. The sis an "Empire Louds compaige" now ing conducted with much vi/2; which promises excellent results. The British economic commission is taking charge of the movement and has ma proposals of a practical nature for its extension, especially in the United Kingdom. One such acheme is the running of stabilition trains, for the purpose of advertising British goods in the various centres visited. All the principal railway companies are collaborations.

sum of money-running into hundreds of millions of dollars-for the special purpose of Empire trade de-vilopment. He suggests that the dominion provide v:Jonnent. He suggests that the dominion provide their fair share of the fund, seeing that they would be so greatly benefited. It will not be easy, perhaps to persuade the governments of the various domin ions to, make their contribution for this purpose but it should be a simple matter to create public en

To Investors of

Moderate Amounts

The very fact that you may

have only a moderate amount to invest, should make you

ubly cautious in your ch of security.

The supreme security is a Dominion of Canada Bond—and the interest—4.75%—in the present issue of Dominion of Canada Bonds, is particularly attractive in view of present money market conditions.

Dominion of Canada

Denominations: \$100, \$500 and \$1,000

MORE PERSONALITIES

Mr. King took up a good deal of time in futile riticism of Mr. Meighen here yesterday. What the ublic of Canada is much more interested in than mal attacks is the policies or lack of then leaders have to offer. The Prime Ministe pleads for a large working majority in order to do pleads for a large working majority in order to do things. Four years have not given him that support although he had that length of time in which to flirt and win if he could the Progressives. He had their support on the budget which was framed to catch their favor. What he wants in addition is stated in eralities. As ever he is full of fine words but leave out the precise details which the country wants. No so Mr. Meighen. He has a straightforward policy and ion for Canada's ills. The country will kno which policy to base its hopes

REFORMING THE SENATE

sably be doubted, according to the op inion of many observers in this campaign, if Premis into of many observers in this campaign, if Premise King has any faith in his plan of calling a provin-cial council to discuss the question of the reform of the Dominion sénate. He must know that it will be virtually impossible to gain the consent of many virtually impossible to gain the consent of many Quebec and Maritime province representatives to any reform which would have the effect of emasculating the senate. In Quebec and the maritimes the senate is looked upon as the bulwark of the rights of minoriis holded upon in the bollevark of the rights of anisori-tised the rights of the weaker nees and the minor provision against the unjust agarmism of the stronger provision against the unjust agarmism of the stronger provision or rance. It he is determined to clip the senantic visuals be will have to find some other way, and it is clear that he depends, not upon a proxin-cial countril, but upon the good old method of a provision of the provision of the control of the provision of the provision of the control of the agreement of the provision of the control of the provision of the control of the control of the provision of the control of the control of the con-trol of the control of the control of the con-trol of the control of the control of the con-trol of the control of the control of the con-trol of the control of the control of the con-trol of the control of the control of the con-trol of the control of the control of the con-trol of the control of the control of the con-trol of the control of the control of the con-trol of the control of the control of the con-trol of the control of the control of the con-trol of the control of the control of the con-trol of the control of the control of the con-trol of the control of the control of the con-trol of the control of the control of the con-trol of the control of the control of the con-trol of the con-trol of the control of the con-trol eight of the senators who have been appointed with-in the last few days and will be exacted from others

mained in office for several more years, he might be able to earry out his program. Time would be or maintail is office for exercil more years, be might be this side, for the week.

In add, The Consecrative microry is the exacts that side of the little ones. The Intelligencer makes us consume that the proper material of the little ones. The Intelligencer makes us consumer to the proper authorities. But Full little ones that the table of the little ones. The Intelligencer makes us consumer to the proper authorities. But Full little ones that the table of the little ones the little ones that the search principle of the little ones that the search principle ones that the little ones that the search principle ones that the little ones the little ones the little ones that the little ones the little ones that the little ones Liberal senators from whom no pledge has been ex acted? Will all of them support his reformatory plans! It is more than doubtful. Some of the gov measures in the last parliament were opposed not lesstrongly by Liberal senators than by Conservatives ral senators, moved by a sense of public dut could bring themselves to oppose the measures of a Liberal government, would they not be even more disposed to oppose a measure which would strike at th power and priviliges of their own house? Remember this: Regarding the usefulness and con-

stitutional rights of the senate, the point of view of stitutional rights of the senate, the point of view or a senator who has been a senator for years is some-what different from the polar of view of a candidate for a senatorship, one who knows he cannot be ap-pointed unless he takes a pledge to vote as a senaor for the curtailment of the senate's powers That's the rub.

PREMIER KING'S SPEECH

The Premier of Canada visited Belleville yester day on a political tour. He arrived at noon and was met quietly by the local Liberal member and a nu ut fifteen hundred people at the exhibition grou Mr. Fraser of Trenton, president of the Liberal as-sociation, and Mr. Hanna, M.P., excepted the Premier give its blood and treasure in a cause which m no appeal either to its heart or its understanding to the grounds, driving at the front of a procession of automobiles in which no less than aix bands took part. The bands played but outside of that there was no demonstration. Not a sign of a hearty cheer was netration. Not a sign of a hearty cheer was raised during the procession.

The Premier spoke about one hour and fiftee

where spote about one hour and fifteen minutes. It was a bit lengthy for some people who began to be resites and left the meeting. Mr. King on the whole was given good attention the while he priviewed the assertions made at Richmond Till and referred frequently to Mr. Meighern and the utterances of Mr. Meighen.

Mr. King's cry was for a working majority to do Mr. King's ery was for a working majority to do things. He failed to explain why with the she of the Progressives for the past four years he had signally failed to legislate for the good of the people of Can-da; so signally failed that half a million people or more had let the Dominion for the States.

The Fremier appeared alightly annoyed with the

not controve cookers him., References to expenditures and to war costs and to close figures were a repetition of what the country controvers and the state of the country of the part force and in the country of the part force and in the country of the part force and in a book compiler for get the pi

"Where have Robin Hood and the Merry Men one lad in a boy's campa "We get the papers, but h

Lewis, and all the rest of the crowd go?

Well, that's just it. They have been away at

What did they do and see at camp? Ab, that's an-What out they do and see at campr AD, LEARs and other thing altogether. If the story that Roy Preston told, about his faishing trip up the Wig-wag river in a cance, is any hint at what the Merry Men will all be telling this winter, then you can get ready with a pillow to sit on, for you will not want to move or

It was getting fairly close to September, and all the lads were home from their vacations out of town.
They all had big tales to tell and were laying for Wess, as he never went away, always remaining on the place to help his father, but they are going to get a surprise, for Mrs. Johnson was proud of her boy's leadership and made up her mind that he would have a chance to see a few things, so she let him have a chance to see a few things, me end visit a cousin down in Eastern Canada, on the sea

shore. Wait till you hear him.

However, Roy Preston told a good one, the very first thing, when the boys met in the Greenwood.

CONTEMPORARY OPINION

When speaking of the recent us

is bound to come back. He may be right, for ther really seems to be no other way of regaining contro over the young. It should be remembered, however that it was the foolish sentimentality of the old, and

. THE SANITARY AGE

F. B. in Vancouver Province:

Itis not long since some medical nut declared tha ilk stockings were dangerous because their continued use over the next few centuries would, undoubtedly, comes from the ancient city of Bath a warning from et another doctor with a Messis threats abrink into significance before the as able col-tax her

threats abnux into regulironere state that institute (what tax her

ever that may be) that the greatest enemy of man

The Manchester Guardian recalls that in review and shancterest or the day of publication, Lady Oxford and Aquith had one great example in Sir Walter Scott, who wrote, though anonymously, a notice of his Tales of a Grandfather for the Quarterly Review, and severely slated "the author" for his slovenline and indifference to probability. There can be no doubt that Scott himself was the reviewer, for Murray stated that the MS, was in his handwriting throughout, and G. K. Chesterton wrote a review of one of his own works some years ago for the Dublin Review Maximilian Harden used to make a practice of get Maximilian Harden used to make a practice of get-ting writers as review their own books in Die Zuk-

The French have started their push. The Riffs so Paris reports have no guns, no leaders and no leas ership, so from the opposition they are putting they must be dashed good fighters.

A Car Unequaled In Looks, Price and Results

Consider the Chrysler Four from any standpoint—of design, of craftsmanship and of performance—and you readily find the reason for the aweeping public demand for it.

Put the Chrysler Four through its pace.
Drive it in the thickest of trafficand you will be delighted by its lightning-like, effort-less acceleration. Chrysler hydraulic four-wheel brakes, now first offered on a car of this price at slight extra cox, complete the feeling of utmost safety and ease of handling.

Take the open road. Step the Chrysler Four up to your speed and keep it there. You discover a tremendous energy and stam-ina, coupled with extreme quietness of per-

formance and marked absence of vibration. You will find that the Chrysler Four gives and does what no other car at its price can equal in power, speed, fuel mileage, acceleration, smoothness, case of siding and handling. All this is the result of a new app

All this is the result of a new application to proven four-cylinder principles of the same scientific engineering, and the same precision of manufacture with the same predigal use of fine alloy steels, so characteristic of its companion car, the Chrysler Six.

CHRYSLER FOUR—Tensing Con. \$1240; Club Comp., \$1344; Comb., \$1445; Todan., \$1816; Ilyahushi Jaminante Budan et alight carts cols.

Warning to seekers of beauty

When your complexion is at stake, use a soap made solely to foster good complexions

DALMOLIVE Scap is made for ONE purpose only . . . to foster good complexions. It is not intended for laundry work. Not even for fine fabrics. It is a skin soap alone. To protect your skin, that is the only kind of soap that you abould use.

In old days, women were told, "use no soap on your faces." For soaps were too harsh. Then Palmolive came. A soap made of cosmetic oils. A soap made to be used freely, lavishly on the skin.

Women tried it, and were amazed. They told others - and better complexions resulted. Palmolive soon became the leading toilet soap of the world. In France, home of cosmetics, it became a leader. French women largely discarded French soaps for Palmolive. Today Palmolive Soap is one of the two largest selling toilet soaps in France.

That is because Palmolive is a unique creation, based on 60 years of soap study. A soap made solely to guard your youthful charm.

But on your skin, don't expect the cosmetic results of Palmolive from any soap claimed to be good for all purposes . . . No "jack-of-all-trades" soap should be used

Don't let anyone mislead you into believing that ordinary toilet soaps, or cleansing soaps, will bring you Palmolive results. They won't-no ordinary soap can.

There are soaps at 25 cents and over, which approach Palmolive in results. But Palmolive sells for 10 cents . . . no more than ordinary soaps. Enormous production brings you this modest cost.

Wash, launder, cleanse with any soap you wish. But when beauty is at stake, take care. Use Palmolive, a soap you know is safe to use. It is nature's formula to "Keep That Schoolgirl Complexion."

PROFIT AND LOSS, MOSTLY LOSS.

An auditor, could be be employed to sum up impertially, as auditors will, the profit and loss on the appearance here of the Rt. Hen. William Lyon Mackenia King. Prime Minister of Canada, would have to show more loss than profit. Mr. King himself is to show more loss than profit. Mr. King himself is a have remarked at the conclusion of his understood to have remarked at the conclusion of his twelve hour visit to Belleville that it was the quietest reception he had ever received anywhere.

The whole proceeding was very unfortun And seemingly not w.'ll organised.

One wonders what happened to make it so. Has for instance Mr. Hanna's previous per

THAS for instance fir. Itanak's previous prochast for expanising and imprine, organization on the part of others so refreshingly admitted by himself in brief speciches subsequent to his election last fall, eraporated On the other hand there must be written down the 'try' earnest and enthusiastic attitude of the Conservatives of the Riding, One of the signs of its fath number of guarantees, mit to be acceptance. it is the number of gentlemen mid to be an selves as candidates if by ab doing they oner themselves as tanders and sane and can win the riding for Conservation and sane and sound government. There is no doubt that whoever is finally awarded the nomination will have the whole bearted support of all these gentlemen. The fact that there us no dearth of writing canonisate it is areasing. It is only where the chances of election success seem remote (as in the case of such well known pool as Mr. Cerzay, Mr. Hodon and Sir Louert Gonie and Capt Shaw of Calgary and a number of gestlemes who have allowed the passeries to be made Sentatoral that candidates are not showing a willingness to go

feel for one thing that the election of a Conservative here will help swell the number who will after the Meighen has stated so well and so truly is the basis

es hee as its function and duty the choosing of a comes has as its function and duty the choosing of a candidate who will command the support of the peo-ple of the constituency and who when he gets to Ot-awa will not be lost sight of there but on the other hand will be recognized in the House as a valuable assistant to the Government, as a leading Parliamen tarian and debater, as something more than a mem-ber of the House of Commons who sits on a rest beach and votes when the division bells ring. This city and this area are too important not to be re-presented by an outstanding man, and one too who can take his proper place in the social as well as the cal duties of his office both here and at Ot-

much work to be done; that is true of all campaigns and therefore all should without having to be asked offer their services; for the Cause is worthy since it is no less than the overthrow of an Administration Is no less than the overtness or an auminium area that has allowed Canada to drift dangerously next the danger line in debt and has been unable to provide a remedy; which has been aware of the exodured to the conduction of the conduction of the conduction. of half a million of the best people of the country to the Republic to the south of us without being able fact—and this is most remarkable—seeming to care greatly; without being able to please any just of Canada and with nothing but vague and highly ex-perimental policies—so-called—as its hope for the

sperity and they will get that only by cleani house at Ottawa.

home at Ottawa.

And this city and district in the recent visit of the bead of the present Administration had shown them a close up of the cause of the ineptness and inadequacy and unpracticalness of the Liberal Government. quary and unpracticalness of the Liberal Governmen in the person of Mr. King himself who on the defen sive had only abuse of Mr. Meighen and a su

Poor stuff. A school boy would not do as badly Mr. King's visit here was an unfortunate affair.

HAMILTON CHIPS IN

Parks of Toronto on isortaly, treating of the equilibrium of the Toronto on isostaty, treating of the equilibrium of the earth's crust. Two women peptiers are announced: Mise L. Grier, principal of Lady Margaret Hall, Ox. and president of the reconomic section, who will discuss warp problems; and Dame Helen Grynare Vaughan in the bottany section, whose subject is re-production among plants. Their appearance shows the growing importance of the place of woman in sections in the contract of the place of woman in sections in Euler 1. rience in England

COMING SEASON'S DANCES

"There is no doubt that the coming dancing season will see the return to popularity of the tange and the walts to the exclusion of everything else," dec-lares a well known London West End dancing instruchere will help sweet too besteen the best of the boundaries with the "sound and strong and protective tariff" which Mr. form of the popular conception of the dance, and will be sound and strong and protective tariff which Mr. form of the popular conception of the dance, and will be sound and strong and protective tariff which Mr. form of the popular conception of the dance, and will be sound to the dance and will be sound to the d

som of the popular conception of the dance, and will consist of, show that a dozen steps at the most. "Expert opinion is that people are getting tired of, the for trot which is always played very quickly for the benefit of those who cannot dance, and that they will velcome the slow and almost plaintive beauty of the tango which leveds itself to attractive music." The walts will mainly be of the hesitation variety. The walts will mainly be of the hesitation variety, for which a great deal of music has been written re-cently, and which will after a long interval, have music of its own and not have to rely ashiost entirely on foxtrot tunes played in somewhat doubtful walts

SEARCHING FOR BEAUTY

ZIEGFIELD of New York theatrical farne, has himself the task of discovering six "stately English beauties" to adorn the United States stage and has already 300 to chose from His wants are quite simple. The girls he selects must be "slender, fairly tall, and preferably bloade," the type which England can sup-ply and which the J.S.A. apparently cannot. But they must be exceptionally beautiful.

charge, considering my circumstances?" she inquired "That is my charge for the operation," he replied The woman drew a cheque for \$500. He handed it sak caying, "I cannot accept this. My charge is the back caying, "I car

oun I named."

"Very well," she said, "keep the cheque and put the

statement on which were entered charges of various kinds of services rendered on all sorts of humanity male and female, black and white, young and old, who had been treated at her expense. She was so de lighted that she includiately placed another \$500 to her credit on the same terms.

GOLF FOR 17% MILES

A remarkable golfing feat has been accomplishe near Winnipeg. Hugh Fletcher, the professional of golf club, teed off in froat of a nawspaper office an proceeded to play through the streets, out into the country, over gravel roads and across pastures as

PASSPORT LAW

An interesting point in connection with the granting of passports is noted by a London Evening Standard sriter. There is, it is claimed, a common law right to leave the realm in times of peace without a

tem of issuing passports is obvious. The British For-ign Office has no right to endorie the passport for armless; for the Foreign Office does not and can-not, take any notice of the law. At any rate, a friend who defiantly wrote Gambling received not admonishment.

Here and There

All tourists' records, motor and brain, are being broken at Banif, Al-berts, this year. More than 18,000 cars were registered by the first of August with the big rush yet to come. As many as 2,000 were under xanvas at one time in the Govern-ment auto camp eround.

Maple sugar and maple syrup pro-faction in Canada during the asson of 1285 amounted to 3,791,280 pounds and 3,720,093 gallons, respectively, the aggregate value of 5,025,— the sugar-part value of 5,025,— the sugar-part value of 5,025,— the sugar-part value of 5,025,— and 1,970,089 gallons of maple sugrap during 1294. Quebec province ac-counted for ever 50 per cent. of the counted for ever 50 per cent. of the counted for ever 50 per cent. of the ball of the output of maple syrup,

dustries of British Columbia during 1224 aggregated in valo 8210,092,738, as compared with \$827,554,041. In the previous year, according to a statement fassed by the Provincial Covernment. The 1224 production was made dp as follows, with 1923 comparative figures in brackets: Forest productis, 850,702,000 (858, 1927,881), mines, 846,704,604 (841,204,203); and fisheries, 821,286,985 (820,785,981) and fisheries, 821,286,985 (820,785,981). 65 (\$20,795,923),

Canada's ordinary revenue for the four months of the present fiscal year ended July 31 last, shows no necrease of \$2,032,163 over the same four-month period last year, according to a statement made by the De-partment of Pinance. Ordinary re-ease for the four months of 1925 amounted to \$141,759,416. Ordinary expenditures during the four-month

OVERCOATS For Fall Wear

We have received all our new Overcoats, suitable for this season of the year.

FOR \$15.00

We wish specially to mention the very fine line, at the above price, in Oxford grey. These coats we bought for the man who wants a nice quiet color, and a dressy coat. They are priced very low at \$15.00.

Oak Hall

Established 50 Years

The long dollar

A wise man makes his dollar stretch. He buys-but he buys wisley, making every dollar go a long way.

He knows that the purchasing power of a dollar has shrunk considerably in the last ten years. He also knows there has never been a time when wise buying paid bigger dividends.

Every day, this newspaper contains information that you should have to increase your buying power. The advertisements are intimate little lessons in every-day economy. They teach you how, when and for what your dollar will go farthest.

Manufaturers and merchants tell of their products through advertisements. Almost every new opportunity is offered through an advertisement. Practically every unusual buy is advertised.

You can streeh your dollar to its elastic limit by keeping abreast of the opportunities to get full value.

The Advertisements will Help You Make Your Money Ge Far

The Balbriggan Dress

The New Leader

Fall Wear

Ealbriggan—the fine, light-weight fabric knit from all-wool yarns is coming into great popularity in Fall Dresses for sports and general wear. Reports are the same from several style centre—they are wearing the Bablirgan dress.

A very fine selection of these dresses will be found here. The wearing qualities of the material are well-known. Add to fast the attraction of simple, straight lines, with sufficient follaces to make the dress becoming on almost any figure, narrow bolts, rows of small pearly battons for trimming and last but not least, a full selection of all the new colors. These

range from pale tints of blue, manue, peach, green and yellow, to the darker wood shades, rose and rose-brown tones, dark bluer and papeles. Some very watractive dresses are made in two-piece style. The skirt has the channel pleat and the blouse is trimmed with rows of braid and self-covered button; sizes 16 years

estinghouse ne Now Means More than Ever in Radio

THE development of radio is closely associated with the name Westinghouse. Westinghouse originated broadcasting, pioneered many of the improvements that make radio possible in every home to-day.

Such leadership brings responsibility; you naturally look to such an organization for the latest betterments in the radio field. Westinghouse now stands ready to fulfill this obligation to radio buyers.

Radiolas made by Westinghouse are giving

universal satisfaction. Three new sets are ready. Universal satisfaction. Infer new sets are ready, This gives a wide choice from the 2-tube set to the Westinghouse Eight Super-heterodyne. There is a Westinghouse set adapted to your requirements, at a price for every purse.

Westinghouse dealers handle Brandes Products: Loud Speaker, Table Talker, Head Sets, Phonograph Attachment. They are selected and instructed to give complete radio service. If unable to locate a Westinghouse dealer, write our nearest branch office.

AS TO WARD MEETINGS

will give their support on October 29 next.

It is important that these meetings be well att eliberately and thoughfully.

denberately and thoughfully.

The wealth of material for cashlidates in the Risilog, pieced together for the first time by a recent
Redistribution, is at least an indication that the
hopes of success for the party's candidate are high

then that the delegates to that Convention be wisely chosen and truly representative of all parts of the constituency and that they give their duties at the convention their most careful thought.

In the meantime ward and district meetings should be well attended. There will be good speakers and electors will hear the vital issues of the day discu

begins to try to make him .- Chicago News.

STATIC ELIMINATED

enient that the arch-bugaboo of radio, Old Man Static, has been conquered by two Chicago ama-teurs, will be welcomed by radio fans and manufac-turers everywhere. The most remarkable tribute that on he paid to the radio industry is that it has suceceded in spite of static; with the disturbance clim-inated there is no estimating the strides that will be made in the interesting field of wireless telephony.

Static is the technical term for stationary electricity,
and the keenest electrical experts of the world layer en compelled to admit their inability to either conwith the rulin receiving set underground but it has adjung most recret the se

to do their part for Canada's weal : uture development. Let one and all do their best.

Yours truly, THOMAS WICKETT.

The influence of the flare is observed in all the new cloth frocks and the effect is delightfully different. Very attractive models are developed in wool black and green and brown in autumn shades. Barboidered flannel and leather suggest new notes for trimming. The flannel frock lends variety and is seen or plain models, of styles and colors, including striped.

Let there be harmony in things emential-

WOMAN'S MISSION old as has been the progress of the

ent in the few brief years since sex equality something more than a mere aspiration, in the opinion of competent authorities only the barest beginning has been made in the assertion of wom-an's influence in the political field and in the afany introcess in too pointest riess and in the siz-fain of the world at large. Just recently the United Bates eichersted the fifth anniversary of the amont ment to the constitution which gave the vote to the women, of that country. Throughout the republic spe-cial celebrations of the anniversary were staged, and the press in the various states devoted considerable about in political and social lite as a result of the insemblent. That, closely for the better. Legislation has been soony greatly for the better. Legislation has been to be the proper probably more than the been in a better than the contract of the small design of the contract of the contract of the contract of the contract of the small design of the contract of the small contract of the small contract of the ment on the smaller developments of the first years under national suffrage," says the Houston onicle, "there can be no doubt that we can hail curvators, hore can be no court unit we can make the adoption of the instrictenth amendment on August 28, 1920, as the beginning of an era of greater salightenment, greater justice and greater idealisms, as era of more human kindness, understanding and sympathy, than the world has ever known before." Woman, herself, however, is by no means satisfied with what has already been accomplished. In all countries much work which the women are specially qualified to undertake remains to be done, and that a recent census taken in Irak with the best m qualified to undertake remains to be done, and that a recent cenns taken in Irak with the best me there is no thought in their minds of resting on their thods available aboved a population of 9,00,000 is laured. It is the object of the leaders of the femin-country known to contain no more than 3,00,000 a ist movement to abolish war. In the United States t movement to aboish war. In the United States the outside that the second of a policialite task properties a storing influence is being entered in this on a new them usually accelerate flavor. The commission, whose report is prarry advisory some one exclude the belief above in us firm agreement and Mond about of to Task if the Bellief above in us firm agreement that Mond about of to Task if the Bellief above the term of the second direction. Mrs. Franklin D. Roosevelt declares: "We indicitive of w want words peace, and believe that observes it should go to Turtey. With this the com-stances in the World Court is the first along our inlineing practically refirst, kernigh the fiditis attase country cas take toward this end. If there he those men is the templement quantary resulting from the spike units is the resulting the country of the count the publishment was been been to the atoms pays of levels and according to the publishment of the publishment and the publishment and the publishment and the publishment and the publishment are been that the publishment and the publishment are been the publishment and the publishment are sufficient to the publishment and the publishment are sufficient to the publishment of the publishment and the publishment are sufficient to the conception hunters in the noise manifest, Publish of publishment of publishment and the publishment are sufficient to the the publishment and the publishment are sufficient to the publishment and the publishment are sufficient to the training factor; but both the Firsch and one publishment are sufficient to the training factor; but both the Firsch and one publishment are sufficient to the training factor; but both the Firsch and one publishment are sufficient to the training factor to the suppose the publishment are sufficient to the training factor to the suppose the publishment and the publishment are sufficient to the suppose the publishment and the publishment are sufficient to the suppose the publishment and the publishment are sufficient to the suppose the publishment are sufficient to the suppose the publishment are sufficient to the suppose the sup eration of human society and the pa-

TO HARNESS THE TIDES

nation of tidewiter for power purposes is ea. It has often been discussed, but not u hew idea. It has often been discussed, but not us now has a definite plan been worked out to harm now has a definite prin been worked out to narrow the tides and make them yield power for the devel-popment of electric energy. An engineer has used a plan for utilizing the tides in the Bay of Fundy. Not only is the engineering phase of the enterpr put on paper, but also its possibilities as a comm cial investment. In both ways it is pronounced pr ticable, and the state of Maine is going to take i up and push it as a public work. The state legislatur has approved of the application. has approved of the application of the engine take the construction of th dams and locks, and the voters will so be called upon to ratify the action of the legisl

would seem to be necessary to obtain the consen-of the Canadian government before the work is pro-ceeded with Perhaps the co-operation of the New Drunswick government, should be obtained. If the work were done jointly by the state of Maine and the province of New Brunswick the electrict current gen-

rated would be divided between them.

If there's a place in the world where the tides on harmoned and made to serve man's mee, the Bay Fundy is that place. There the highest tides in Sometimes they rise to the in the bay itself, but in the Passamaquoddy region,

son more about Muscle Shoak; but the Secu with Niagara [Fallis is inaccurate. The wa-Queenston works cost less than a hundre and has a larger capacity than 600,000 horo Howevier, this tide water project, if it prove ul, will be a splendid trump of human ski to this task.

MOSUL

It is prarible, or course, that the a a plebiarta would have to be taken anyway, ma mean a war. It may, on the other hand, signify only

that the present session at Geneva is an uncommon dull one and that the astute statesmanship while has so many times played upon the little weakness es of great powers has resolved to get the last po sible ounce of trouble out of the misadventures the British Near Eastern policy. The "friendly arrangement" by which Turkey and Great Britain, under the terms of the Lausann Treaty, were to establish the northern boundar

of Irak has been pursued to a running fire of cha-ges, counter charges, raids, occupations and airplat bombings, until it was necessary for the Leagu Council last year to fix a temporary line while waiting for the report of its commission of investigation

Mosul's population is mainly Kurdish— which th Turks, in spite of a recent rebellion or two, claim a Turkish adherents—with a scattering collection of minorities. But it is said that a more accurate class fication would divide the population into the pro-ductive (the settled tribes who would prefer as bonest government) and the predatory, made up, of the more numerous nomadic tribes who would pre-fer no government at all. When it is pointed out

eum Company, which has secured the Iraqui concession to Mosul oil, and the council will almost certain by decide in favor of British control over the terri-

would be an interesting test of the theories of Col-onel Mitchell, because all the remaining British tecops in Mesepotemia here been put vider comnand of the Royal Air Fong, where planes are is

FRANCE AND AUSTRIA

rmany, and the Austrians, for their part, are su Germany, and the Austranas, for their part, are sus-sected of harboring an inclination for such a me-ser. In the event of its taking place, France would want a free hand, irrespective of any conventions and obligations she might enter into with the Eurocan nations, in dealing with the combination. What grounds has France for fearing such a contingency? In the first place, the population of Austria is ossen-tially composed of Germans. Under the old condi-Used to terminal. Under the old condi-vested in making that profit, Usen, before the war, the Austri-Dungsrian empire, thing for the mas without capit odd relial mixture as it was, was held together un-capital is indispensable in making der one sovereign, and the people of Austria did not feel themselves so entirely isolated as they do now, from the north-mere, whose only

ite with their fellow Germans," occaires the Caisago Journal, of Commerce; "and Germany neeking, to advance toward the east, wants to take, Austria." The League of Nations is the answer to those pro-blems. With Germany a member of the league, she would be subjet to strict regulation and it would not ed at \$100,000,000, and the quantity of power to be is more anxious to prevent the merber, however, kever been dis-generated is about \$00,000 horse power. "Thus." says than onecromed as to any action, which might follow of climate.

tion to play a lone hand CONTEMPORARY OPINION

SOMETHING TO ANTICIPATE

St. Catharines ceanoasu.

A prediction which does not seem hazardous to
make is that of Dr. Donald M. Marving economist of
the Royal bank, who looks forward to a great period

Canada. The prediction is based on of prosperity in Canada. The prediction is bar the fact that the United States is rapidly com will mean more of a paying proposition on the farm of this Dominion end an influx of settlers to Canada It is quite worth looking forward to.

The long dollar

A wise man makes his dollar stretch. He buys-but he buys wisley, making every dollar go a long way.

He knows that the purchasing power of a dollar has shrunk considerably in the last ten years. He also knows there has never been a time when wise buying paid bigger dividends.

Every day, this newspaper contains information that you should have to increase your buying power. The advertisements are intimate little lessons in every-day economy. They teach you how, when and for what your dollar will go farthest.

Manufaturers and merchants tell of their products through advertisements. Almost every new opportunity is offered through an advertisement. Practically every unusual buy is advertised.

You can streeh your dollar to its elastic limit by keeping abreast of the opportunities to get full value.

The Advertisements will Help You Make Your Money Go Far

About Crowds

Or more avacly, how hig it was

above, it is definitely known that, the streets with no less than 6 the mathematical and the mathematical and the mathematical and the streets was that 7,000 people were hard to say. Anyway there were 7,0000, to the estimate, inside of any hard to say. Anyway there were 7,0000, to the estimate, inside of any hard to say and dropped dress to be shoot one-tenth of the out of the street of the same of

Thus we have the imposing drop from 7,0000 to 600 within the space of a few days. Fifteen humired stands as the larger estimate—the other side continues to drop the figures down. "Consistency thou art a jewel."

But it WAS a crowd. "Three's a crowd."

SINCLAIR'S

The New Coats

Features of the New Coats which mark them very distinctively are the luxurious furs, which are shown on practically every coat; the flares and ripples that are used in many models; fine fabries in beautiful soft colorings in autumn tones. All these go to make our showing of Coats complete, at moderate prices from \$18.50 upward.

SINCLAIR'S

FUR CHOKERS

A fur choker adds a touch of distinctiveness to the new fall dresses and coats, as well as that little added comfort necessary in the cool fall evenings. Our display includes FOXES, MINK, HUDSON BAY MARTEN, STONE MARTEN, SQUIRREL, etc.

A ROAD SONG
By Arthur Wallace Peach
The road of dreams is bright and gay
With summer sun and shine,
And visias far of Aready
The distant hills enabrine;

But ah, my love, and ob, my lov The road of dreams goes down To darknest valleys of the earth Where stariess shadows frown

Yet we will take the road of dream And walk it every mile, Though it shall dip to valleys dark Where sunsels never smile;

With my friends who are 1033
true;

But, Mother, dear, with the mon
beams
I hasten me home—to you!

The long dollar

A wise man makes his dollar stretch. He buys-but he buys wisley, making every dollar go a long way.

He knows that the purchasing power of a dollar has shrunk considerably in the last ten years. He also knows there has never been a time when wise buying paid bigger dividends.

Every day, this newspaper contains information that you should have to increase your buying pow er. The advertisements are intimate little lessons in every-day economy. They teach you how, when and tor what your dollar will go farthest.

Manufaturers and merchants tell of their products through advertisements. Almost every new opportunity is offered through an advertisement. Practically every unusual buy is advertised.

You can street your dollar to its elastic limit by keeping abreast of the opportunities to get full value.

The Advertisements will Help You Make Your Money Go Far

Every Meal

A Mistake

that some beauty seekers are making They are misled on "olive and palm" soaps

Do you realize, Madam, that "olive and palm" soaps are ages and ages old? But never has one, before Palmolive, brought comparable results to the skin.

Palmolive Soap is a masterpiece, based on 60 years of soap study. It is a scientific creation, made to bring new beauty to the skin. Made to keep schoolgirl complexions.

Its unique results have led millions to adopt it. Now it is made in five countries, to supply the world-wide demand. It is made in France, because French women find in this their ideal

Soft, velvety complexions are many times as common as they were before Palmolive came. Then don't accept ordinary "olive and palm" soaps, with artificial color, and often super-fatted.

Palmolive costs 10 cents-no more than the price of most ordinary soaps. But that is due to enormous production. Palmolive has become the leading toilet soap of the world. The only, two soaps we know that fairly compare with it cost 25 cents per cake.

This warning is in your interest. There is a way to keep youthful complexions, and multitudes have found it. But that way is not a mere "olive and palm" soap. It is found in Palmolive alone.

Note the unnatural "too green" color of Palmolive imitators. What does that suggest? Men don't paint nature to improve it.

Olive and palm oils-nothing else-give Palmolive its delicate, natural color. Olive and palm oils—no other fats whatsoever—are used in Palmolive.

No "super-fatting," no "super-anything"—the only secret to Palmolive is its blending. And that is judged one of the world's priceless beauty secrets.

Let no one convince you-for your own sake-that any ordinary type of "olive and palm" soap can bring you Palmolive results,

Wash, launder, cleanse with any soap you wish. But when beauty is at stake-take care. Use Palmolive, nature's formula to "Keep That Schoolgirl Complexion."

IN PARIS

French soaps for Palmolive

Palmolive is today one of the two greatest selling toilet scaps in France. Parisian beau-ties are happy to pay almost twice as much for a cake of Palmolive as Canadian women pay. And, in many cases, three times as much as for their own French scaps. Re-member this when tempted by costly French scaps, or by "French" claims for scaps.

Recommendation of the commentary to
ADA M'KENZIE

The long dollar

A wise man makes his dollar stretch. He buys-but he buys wisley, making every dollar go a long way.

He knows that the purchasing power of a dollar has shrunk considerably in the last ten years. He also knows there has never been a time when wise buying paid bigger dividends.

Every day, this newspaper contains information that you should have to increase your buying pow er. The advertisements are intimate little lessons in every-day economy. They teach you how, when and for what your dollar will go farthest,

Manufaturers and merchants tell of their products through advertisements. Almost every new opportunity is offered through an advertisement. Practically every unusual buy is advertised.

You can streeh your dollar to its elastic limit by keeping abreast of the opportunities to get full value.

The Advertisements will Help You Make Your Money Go Far

Cut Velvets

The Ultimate Expression of the Vogue for Fabrics Which Are Luxurious, Yet Light in Weight.

Sheer Georgette, with applied patterns of finest silk velvet. This fabric is magnificent in a new way. The effect is very beautiful, used alone or in combination with plain velvet. The new fiared frocks demand a fabric that is supple and which drapes gracefully. For the formal Fall gown, cut velvet or velvet broade, is the supreme choice.

These Velvets come in beautiful brown and red-brown shades. One has a and background with a brown design, another howers that it is not a support of the sup

Let there be harmony in things essential in things not essential. Charity in all.

MAYBE THEY DON'T KNOW

The spirits with whom or which Sir Cona. Doyle is familiar have for some time, he says been telling about a great catastrophe soon to fall at, for Sir Conan tells us that Great Britain us hope that the special filter shown to Britain will be extended to the British Dominions as well.

Possibly, however, Sir Conan's spirit informants don't know any more about the future that he does himself. One reason for suspecting that they may not is the uniform failure of the "spirit bands" which are supposed to assist mediums to soire much simpler problems than the reading of the future. Only the dar's own exercised the stury of a "Stuthung making Rev. Dr. Alles Desley." Revenue to the tentus and mustle of a Statistance studied, Rev. Dr. Alles Desley. The reads to the tentus and mustle of a Statistance studied, Rev. Dr. Alles Desley. The received the tentus and mustle of a Statistance studied. The state is that the state crims of the tentus and mustle of a Statistance studied. The state is the state crims of the state whatever to the questions—in fact, were mere guesses such as anyone could make. And if the Dooley spirits couldn't even read a

few words of writing within an envelope, one might be pardoned for doubting if the Doyle spirits can pierce the future with phophetic vision. Such a doubt is all the more reasonable because of the fact that, to judge from spirit commun cations, the spirits who or which habitually speal through incarnate mediums are evidently of rather low order of intelligence. So we do no think anyone has cause to lose sleep over Si Compar's creeny announcement.

AS TO MR. MASSEY

The Hamilton Herald, an Independent p speaks of Vincent Massey, whose appointment t a place in the King Government has caused so much surprise and excited so much comment, as "a captain of industry" by inheritance more than by choice. His tastes and talents, according to The Herald, "are academic and artistic rathe than industrial. He is president of the Massey Harris company because he inherited the controlling interest in that corporation. Apparently to do with intellectual nursuits than with the making of farm machinery, "We learn further that Mr. Massey is an enthusiastic patron of the drama "something of a dilettante in theatrical art"; he not only helps to finance the production of plays at Hart House, but occasionally takes part in them as a performer." The Herald thinks part in them as a performer." The Herald thinks it possible that he may be ambitious to be a dilettante in politics, too

The significance of all this seems to be that we nection of Mr. Massey is supposed to require some other explanation than is to be found in the claims put forth by the party leaders who treat it purely as a vindication of the Liberal tariff pol-icy from the point of view of the manufacturers.

AUSTRALIA'S EXBERIENCE

Sir James Elder is Australia's trade com missioner in the United States. He paid a visit to this country recently and while here had some ineterestings things to say about his country, peating falsehoods in connection with the quet Among other things, Sir James said that Australall now on the cutst of a phenomenal wave of lon has agreed, on more than one occasion, that industry had never been no provided wave of lone has agreed, on more than one occasion, that prespectify, that industry had never been no provided the provided had been spent by the government in presure, and that the Australian people and fast jurisping to this country 110,000 people, of whom the provided had not been also being relevant of the heavy burden of taxation about one-half have since left. This sum, asserts which they have been basing since the wave. Due-rife. Kimp, ineffect 61,000.000 pents on the Wern-Weith they have been basing since the wave. Due-rife. Kimp, ineffect 61,000.000 pents on the Wern-Weith they have been basing since the wave. Due-rife. Kimp, ineffect 61,000.000 pents on the Wein-Weith they have been basing since the wave. Due-rife. Kimp, infilted 61,000.000 pents on the Wein-Weith they have been basing since the wave. Due-rife. Kimp, infilted 61,000.000 pents on the Wein-Weith they have been basing since the wave.

decition are in contemplation.

The bid keypy asks of things to some strict more yellow the keypy asks of things to some strict more yellow the some yellow the some yellow the some yellow the some consistently followed in Australia. The Australians have consistently followed in Australia. The Australians have used that procedure that simple parties of the feature infeatury and also in enable there to smalle affect to the solution of the solution of the solution. It is matter which must be kept consistently and the consistent of the solution of the solu

particularly vociferous Red. Speaking at a redown by government executioners to prove he is

a bona fide revolutionist.

A lot of Britons have grown weary of Saklat A 10t of Britons have grown weary of Sakist-vals and other Red agitators. They would gladly second his desire for a swift demise—not, how-ever, at the government's hands, as nobody cares upon the world. It is to be sent as consuments, ever, at the government's hands, as monopy caves for the writer by display him sed his his down with an unpartied of the catastrophe is not disclosed; it was for the marryrdom. Braider, Mr. Saldatvala known very sins of manifold that who hier race, with the er- well taken political executions aren't in Tableno is explicit on one family, was drowned. Evidently lightain nowadays. If they were, he wouldn't the classification is bost furth with produced to severe her artificial and one has he ply Mr self-upon the control of the second of the second of the second one secret has no severited as long as has he ply Mr self-upon the second of the second o

reraive game.

Yet, realizing as he does, what a free, easy-going land Britain is, Mr. Saklatvala, at another meeting, said:

"The Union Jack is the symbol of enslav-ed labor. In the name of British labor I de-mand that the Union Jack shall cease to function. I say let us abolish the Union

The Union Jack probably has its faults, and men and women who really work.

It is, indeed, a curious kind of labor slavery catalarvals are having a bond time convincing lives and has a viril, where dealy visite the heatfeather in the dole system that it is smarthing to revolt about.

THE OUTLAW MOTORIST

The drunken motorist on the street is in the position of a man who recklessly flourishes a deadly weapon in a crowded room. Such a moorist is a potential killer. His personal safety is a slight matter, but the menace he imposes o pedestrians and other motorists is genuine. He has no more place in modern traffic than : ine has with a group of children.

CONTEMPORARY OPINION

A WESTERN CRITICISM

(Kingston Standard)
The Manitoba Free Press does not take ent of Hon. George N. Gordon reason is not hard to find. Following shortly upon his appointment Mr. Gordon in a public statement declared: "We want no more people from other countries until we have absorbed all the people now located in Canada in its industrial life."

In other words, Mr. Gordon apparently not believe in immigration at all at the preser lime, not even for farming constituencies—and this despite the fact that there was a very urgent call from the West this year for thousands of barvesters. If, then, there is no need for im-migrants, why any need for a Minister of Immi-

London, Sept. 22.—The house in Glastore where Robert Burns tired in 1818-82 was destroyed by fire and ser-on families were rendered homeiess. Urran occupied a single room in the house, paying a shilling a day rest, and itred in the plainest fashion while employed in the flax-dressing butness, till initials are cut in the kitchen man-telpiece, which survived the fire. Monday, revremoer 9, has been ap-pointed Thanksgiving Day in Canada this year. | Alkentrax Lekure | Calume |

The long dollar

A wise man makes his dollar stretch. He buys-but he buys wisley, making every dollar go a long way.

He knows that the purchasing power of a dollar has shrunk considerably in the last ten years. He also knows there has never been a time when wise buying paid bigger dividends.

Every day, this newspaper contains information that you should have to increase your buying power. The advertisements are intimate little lessons in every-day economy. They teach you how, when and for what your dollar will go farthest.

Manufaturers and merchants tell of their products through advertisements. Almost every new opportunity is offered through an advertisement. Practically every unusual buy is advertised.

You can strech your dollar to its elastic limit by keeping abreast of the opportunities to get full value.

The Advertisements will Help You Make Your Money Ge Far

County, was nearly wiped out by fire last night. The Parish Church, the offices of La Banque Canadienne Nationale, six stores and six private residences, fell prey to the flames and this morning they are nothing but a mass of ruins. Volunteer firemen fought for hours to prevent the spread of the flames, but their efforts were unaccessful, largely because of the high wind that whipped the conflagration into a fury and periad the flames from house to house with startling rapidity.

New Stubby Umbrellas

To complete the Fall costume. To keep the Autumn rains away, To solve a gift problem.

There's a bright appeal about these new umbrelias. Though they are covered with cloth in sober colors, their handles possess great individuality. They're just in from New York, and look, as they are the latest thing. All in stubby styles, with thick handles and fer-rules. Handles are gaily painted in bright colors. Tips and ends are of amber, with good quality, durable tops and silk wrist cords. Friced as low as \$1.90 and as high as \$10.00.

Silk-covered umbrellas in purple, navy and black

Silk-covered umbrellas in navy and black.

Silk and Wool umbrellas in navy and black.

Cloth-covered umbrelals in black only 31.90 to \$4.00

No. 3. Men must work to make a living. No. 4. Men prefer high wages to low wages. No. 5. There is a train service running betw

These facts brought a conclusion into the minds of 300,000 Canadians last year, and decided them to transfer themselves and their potential wealth to transfer themselves and their potential wealth to the most highly protected pountry in the world. The blessing of a high standard of living is an in-resistable magnèt and in order to enjoy the same blessing in Canada, it remains only to us to follow the ecosymic paxemple of our neighbor. Unfortunately its four most esterprising men that we lose. Their clustation, the cost of which is borne by m, is made a transect to 10mb fear, while we handers our exa present to Uncle Sam, while we burden our ex quer, and endanger our racial position by bring-in uncounted aliens.

* ENVY VS PROSPERITY

in the U.S., forgetting these things about them: That most of them sprung out of the working class; that millionaires make possible the large undertakings that mean mass production and lower prices, or low-er real cost of living. The same conditions that make naires give the workmen a chance to own their touse, and have a bank account. Millionaires own notice, and nave a case account. Atmorphisms do not keep their money in savings banks, yet there are in U.S. arrings banks \$53,000,000,000 or \$509 for every man, woman and child in that country. It is tion that has established the greatest buying at wager, the highest standard of liv ing and steadiest employment of any country in the world. We can establish the same conditions in Can-

U.S. VS. CANADIAN PRICES

Some free traders complain that some things a cheaper in the United States than in Canada.

One is automished at any favorable condition found in the United States being put forward as a com-plaint against protection, when the United States is a protection country "par excellence." It is protection that has given them their market to themselves, al lowing them to develop mass production on every ar ticle, under the confidence that the market will be theirs if they produce the goods.

tection has established conditions and pro-e United States that appeal so much to Canad ians that we buy far more goods in the United

try protected, and therefore the competition is re variable result is that producers set their price, its so as to best the imported article after the duty is paid. If the honer market were thoroughly protected, internal produces would look man each other as their competions and would compete with ear-other to give the best value, in order to obain a ste United States and would no so here if we United States tariff. larger share of the toule, It has worked that way

/ PROSPERITY FOR ALL

PROSPERITY FOR ALL

One imports on to paid for only out of production that that pairs in Canada. All attained has a figure representation of the common to be paid only out of this same source. It is the accuse of all wealth-People's excepts are supposed to tens, focus, then, whether People excepts are supposed to tens, focus, then, whether People excepts are supposed to tens, focus, then, whether People excepts are supposed to tens, focus, then, whether and identification of the chillistic state proposed holes the other to spose. This is where all beging power concers from, it means constructing of our hoses and our fortunes.

By protecting reproduction, the United Batte igns believed to the time of the proposed believed to the proposed

AS TO PROTECTION

that of Canada. Why should Jack Castick thank ne-named defend himself wearing armor one-third the thick-ness (that Uncla. Sam feels he misst wear to defend minnell. Seeing that Uncle Sam is thirteen times lar-per than Jack Canuck, it would appear that Jacks wavery or concert must be born of foolishness.

THE DEFEAT OF HYLAN

any and anit-Tammany, owe a debt of gratitude Governor Smith for his fight against Hylanism," clares the New York Herald Tribune, "but for his ination to rid his party of the man respon on, yesterday's primaries would have been a mere ermality, and Mr. Hylan would today again be Tam-nany's candidate for re-election." While New York is a long way from Stratford, yet as the largest city ral interest. Therefore, the struggle within the Democratic party, between Tammany and the publish William Randolph Hearst, for the mayoralty nomi ation at the November election has its repe

Tammany, never wanting in astutens upremacy is menaced, recognised from the begin-ing that the battle would be stiff and could not be won unless a first rate champion were chosen, and the backing of Governor Smith was secured. Its can-didate was State Senator James J. Walker, generally cratic citizens, and a liest rater on the stump. In the last two mayoralty campaigns in New York Mayor Hylan was opposed by practically the entire Gothan press, save the Hearst publications. "The election were won by the usual muck raking methods. Now New York has turned and delivered a severe blow to the Hearst tactics. Tammany has an unpleasant rep house when conditions become too bad

CONTEMPORARY OPINION

TORONTO IN LEAD

(Owen Sound Sun-Times) Toronto, it is said, is the only city in Canad or North America that has numbered postal zone to facilitate sorting and delivery of mail. It is good lead.

AUTO SUGGESTION

(Detroit News) An authority says long life may be atta through auto suggestion. The suggestion is not

to get in the way of one. THIS IS TOO TRUE

(Montreel Witness) A party of public principles is less able together than a party of pooled interests

THEY DO NO SPEEDING (Ottawa Journal)

We have never heard of a driver hitting a tel-egraph pole on his way to church. HOW PETERBORO DOES IT

Exceeding the attendance cojective set by the directors by 6,212 and the best previous mark by 9,172, the Peterboro Industrial Exhibition came to a

triumphal close on Saturday night. The city and district had been asked to a strendance 30,000 people; the total reached

attendance, and does not include

elated at this remarkable showing, a concrete demos atration of the fact that the whole now behind the Industrial Exhibition. This year's exhibition was undoubtedly the best all round fair that Peterboro has ever known, recogniz-

ed by the thousand who thronged the grounds last week and the favorable advertising that will be obtained from the good things said about the Peterboro Industrial by visitors from far and near will be reflected in an even larger attendance next year. Already the 1928 exhibition is being planned; the management has no intention of letting the gras grow under their feet and when September of nex

Users of Onlario highways in years gone by paid a heavy true to mud roads. They paid in the form of damage to whiche the most of time and mosty in getting about the country.

The most taxes were from or burdensome than any concelvable most of the most taxe were from the most part of the most discountry. Not one automobile or truck owner would exchange Ontario. Not one automobile or truck owner would exchange Ontario. The most of the most of the most of the most often the most of the most often th

In making this situation familiar to all motorists, the Govern-ment is requesting co-operation in maintaining the good condition of the roads by the sane and intelligent use of them.

Care of the roads falls into the hands of the public as well as of the road authorities. Repairs are made by the authorities, but the need for repairs can be deferred by reasonable loading and sane driving.

While the law provides penalties for those who overload or drive above the speed limit, voluntary co-operation of intelligent motorists and truck owners is being given in this matter. Those spentiar in breaking the law, however, may expect rigorous and occument of its provisions.

A BARGAIN FOR CAR OWNERS

The long dollar

A wise man makes his dollar stretch. He buys-but he buywisley, making every dollar go a long way.

He knows that the purchasing power of a dollar has shrunk considerably in the last ten years. He also knows there has never been a time when wise buying paid bigger dividends.

Every day, this newspaper contains information that you should have to increase your buying power. The advertisements are intimate little lessons in every-day economy. They teach you how, when and for what your dollar will go farthest.

Manufaturers and merchants tell of their products through advertisements. Almost every new opportunity is offered through an advertisement. Practically every unusual buy is advertised.

You can streeh your dollar to its elastic limit by keeping abreast of the opportunities to get full value.

The Advertisements will Help You Make Your Money Ge Far

sition in Parliament have concluded speaking tout in the Maritime Provinces. Their speeches have bee fairly reported in the newspapers of both parties They indicate that the issue on which the electors with be compelled to vote will be the maintenance of any for at label, the first part of the flower and it is more any for at label, the first part of the flower and it is more any for at label, the flower and it is more any for at label, the flower and it is more any for at label, the flower interest without regard to particularly the flower interest without regard to particular the flower interest with th or weak will be to the general advantage as they must frame and cancet the schoolules of customs di-ties. Those who, from their study of conditions in Canada, past and present, are convinced that a sys-tem of moderate protection for all industries adapted to the country is best for all sections and all classes. unwise to give any beed to the projected tariff board as a barrier against further harmful chan-ges. The House of Commons makes the tariff and makes it in accordance with the ideas that predom-inate in its membership. A House of Commons such as that which has controlled legislation during such as that waith has controlled registation during the past four years will welcome further changes in the line of those of Mr. Robb's budget, white Mr. art, a ministerial colleague of Mr. King, rejoiced over as a ringing of the death-knell of protection.

Mr. King and most of those who have appeared on the platform with him during the speaking tour in Nova Scotia, Prince Edward Island and New Brunswirt have indirated that this is what they desi other hand, Mr. Meighen, Mr. Patenaude and other legders have declared themselvs in favor of th maintenance of a protective tariff designed to apply ral welfare and ensure that diversity of en eral welfare and ensure that diversity of employment which at present too many look for beyond Canada Such a policy from 1878 till the advent of the present Government, guided successive ministries and parties ments and the general result was astinketory. There was greate restlement of the west under the native and policy as introduced by the Macdonald Government and modified by the Laurier administration than there has been during the Mackenzie King pe iod of sacrificing special industries as demands w pressed upon a government which had no majorit; its own in Parliament and had to concede what allies demanded in order to keep itself in powe There is no room for questioning which party polic is in the greater interests of the country.

THE SIZE OF CANADA

may be seen by comparing our size and population with those of Europe. At a glance we can see that we have room for Europe's population and resources we have room for Europe's population and resources to apport them. It is the great land of promise and the twentieth century will see Canada with a vast population and one of the great factors in the economic and civilis Canada to share the cheaper hinds and greater re-sources. All the population of the U. S. could live in the southern half of British Columbia, Alberta and the southern half of British Colembia, Alberta and Bushalderwan, not those half pervices would then be proposed as one more characters would then be proposed as one more character thank Prozens and Colembia (Alberta et al. 1994). ### Optometry - It's Value to the Public (By J. A. McFee Optometrist)

When you decide to visit an Optometrist do not consider how decide to visit an Optometrist do not consider how the constant of the housess of selling lenses and mounting.

Rather regard him sat a person whose skill and advice are what you principally desire, and attach the proper importance to the strictly professional aspect of his duties.

of his duties.

This thought touches the important consideration of the VALUE of an Optometrist's services.

Obviously he is of more benefit to some patients than to others, and the value of the Optometrist's services to the patient should in some measure govern the charge which the Optometrist makes.

That idea is precisely in harmony with the attitude of all professional men. The greater the service the greater the cost.

greater the cost.

Speaking again of an Optometrist's service—any
service that an Optometrist renders his patient is
worth far more to the patient than it costs him to

### Optometry - It's Value to the Public

(By J. A. McFee Optometrist)

(Continued from Yesterday)

How much inefficiency is caused by eyestrain bloody knows, but an observing optometriat is sure that there is mives of it than the general public knows. The proper pikes to combat at correct errors of vision is in the debot.

The proper pikes to combat or correct errors of vision is in the debot.

The proper pikes to combat or correct errors of vision is in the debot.

The proper pikes to combat or correct errors of vision is in the debot.

The proper pikes to combat or correct errors of vision is the debot.

The proper pikes to combat or the condition of it, and make no attempt to relieve the condition because they distilled seeing the child war glasses, make the pikes of the condition because they distilled easieng the child errors to extend the condition of it, and make no attempt to relieve the condition because they distilled easieng the child errors to exist the condition of th

ere victorious at first, but in the end, the superior mental powers of the Ath-caians, combined with their leaser phy-sical strength, swept the Sparatana from the fields of battle.

MIND AND MATTER

The "power" referred to in the lett from St. Paul to Timothy, was "mor power", the speaker explained. "A pr person is a power", maintained Dr. M lott. "But what are you going to with your power?" he asked.

A GIANTS STRENGTH
This braids to the consideration of
Leve. "The perfect man has power,
and the motive to use it adply," he west so, and said that this motive was
by men who are miscrable to them-selves," he stated. These men had;
power without her. The foully was a
prover without her. The foully was a
fined to armies. It was right to have a
plaint strength, hout or faith to use if
as a gists. The speaker sold that reKlyping Steeme har one could all right
but none of them could all right
but none of the could here. This lack
of the quality like stress of the broad;
et all the most of the stress, the could
the metal makency of the subney, the

### HARVEST OF CARELESSNESS

HARVEST OF CARELESSNESS

(Washington Post)

The estimate of deaths through automobile accidents for the present year is 20,000 or one fatality for every 50 minutes. The number of injured will be about 200,00, or one every fire minutes. In both of these ostimates the percentage of accidents due to careless ness of one sort or another is overwhelming. Com paratively few automobile ealamities occur through such factors as collopsed bridges, milicasing signs sudden explosions and other circumstance unavoid able. Of the 20,000 who are expected to? die in th 500 will do so because of sheer heed part or on that of others.

# Coats For Winter

There is nothing harsh or coarse looking about the coats this season. In a general movement toward dignity and moderate elaborateness, they combine elegance with comfort. Soft-pile fabrics, graceful fullness of line and the free use of furs of all kinds give them a new

charm.
These coats are in velour and suede cloth, in shades of brown,
rust, wine reds, red-browns and black. Both straight-line and flared
models appear, with fur collars and cuits, and some with trimming of
buttons, braid or skitching.

NEW YAULTING RECORD for the control of the control

Here, in brief form, we present for your information nine

vital facts underlying the success of Dodge Brothers, and the goodness and value of their product.

Dodge Brothers (Canada) Limited, consider these facts so fundamentally important to the motor car buyer that they will be repeated, from time to time, until every newspaper reader in Canada may be presumed to have read them:

Dodge Brothers, during the past eleven years, have built and sold more than one million four hundred thousand motor cars—and more than 90% of ese cars are still in service. This record requires no comment. It stands impressively alone in motor car history.

It has never been Dodge Brothers policy to build yearly models. When an improvement, that is really an improvement, is discovered, it is made at once. Their slogan, "Constantly Improved But No Yearly Models" is familiar the world over.

Dodge Brothers build one chassis and only one. This policy materially lowers manufacturing cost. It also enables Dodge Brothers engineers to concentrate their entire time and thought on the betterment of this one type.

Dodge Brothers have never had an "off year" or an "off car." This is because they have never used the public as a testing ground for "new models" or lowered the quality of their product in the slightest degree. Every change has been an improvement on the original

Dodge Brothers pioneered in building the first all-steel open car and the first all-steel closed car. These epochal developments have saved Dodge Brothers owners many millions of dollars by materially prolong-ing motor car life and by effecting marked economies in man-ufacture. This construction has also reduced incalculably the danger from accident and fire.

Dodge Brothers sell directly through their dealers to the purchaser. There are no sectional distributing agencies to increase the cost of distribution and the cost of the car.

Dodge Brothers have never given so-called "free service." The car is sold at a fair and honest price. Nothing is added to this original purchase price to pay for service that the owner may never need.

Dodge Brothers Dealers were pioneers in unanimously adopting the flat rate service system. By this system, the owner knows in advance what any service job will cost. There are no unpleasant surprises in his bills.

The sturdiness and long life of Dodge Brothers Motor Car is reflected in its resale value. Comparatively few Dodge Brothers Motor Cars are advertised in the resale columns of the newspapers. The values they bring testify unanswerably to their goodness—and the pub-lic's belief in their goodness.

The purchase of an automobile is a serious and important business. The time has passed when transient novelties can lead a thoughtful buyer to overlook the great essentials of motor car worth.

A few of these essentials are clearly outlined above. They go far to explain why Dodge Brothers name is accepted, the world over, as the hall mark of dollar-for-dollar value.

Optometry - It's Value to the Public (By J. A. McFee Optometrist)

Nobody escapes Presbypis. The common name for this condition is did sight. The common name for this condition is did sight. The human eye begins for the condition of the commod the commodation. The commodation of gradually force what is called its power of accommodation.

Glasses are necessary to restore this power, and the colder a pierson becomes the stronger, his glasses should be.

That explains why a presbyope should change his lenses every year or so.

Lenses that are not strong enough may help for near work, but they don't help ENOUGH.

Every presbyopic person should re-consult an Optometris at regular intervals.

Other articles on the value of Optometry to the public will be printed in this paper regularly. Be sure to read them.

# **DELORO GOES ON**

tee Throws Out Team as Asked.

PLAYER WAS FALSE

Winner of Ottawa-Odes Plays Deloro in Sudden Death.

Brockville is suspended; Deloro won its protest and there is a big shake-up all round in intermediate aschall. A despatch from Toronto

A. had a very busy session at the Carls-Rite Hotel last night. After Catinatus those hast night alter reviewing the evidence of the Deloro Breckville protest the sub-committee decided to allow the protest, and ma-pended the Brockville team for using a player under an assumed name. The protested player failed to make an appearance to deny the charge.

MR. GORDON'S FIGURES The Hon. George N. Gordon is pretty well know in Belleville. He was here last year and made a seriin Bellerille. He was here last year and made a series of swash-buckling speeches which did not increase his own personal prestign locally very greatly, some of his statements later being (oxed -down as well as might be by speakers who followed him.

might be by speakers who followed him.

He has been at his old tricks again. Mr. Gordon
has the trick of overstatement; it is a fault which

Are according to Hon, Mr. Robb last year the er

ome duties brought in \$108,200,000.

Tous is Mr. Gordon flatly contradicted and at the

same time made to appear ridiculous as he the present Liberal Government. addition it must be said that the matter of a ter iff for revenue only is indefinite. It seems to be part of the indefiniteness of the King policy. A tariff for revenue only could be applied wherever it might be

It is uncertain whether Uncle Sam's air service is a not more fatal to American airmen than his submarine service is to American soilors

#### MR. TUMMON ACCLAIMED

Mr. Tummon's campaign has started bery auspici-usly. He was acclaimed at the meeting last night of the Young Men's Conservative club and he impressed every one as a man well worth fighting for. He is "one of the boys" so far as being affable and easily approachable is concerned but he also easily dom-inated the meeting and his speech while not lengthy was right to the point and at the same time stastic meeting perhaps has ever bee held in the old rooms for many veloc but the trouble was that the place was not large enough to accom-modate comfortably nearly all those who tried to get mon is attracting about him the best element in the city; be will have a solid following here.

#### THAT WEST SIDE BUS

It would be a great pity now all things considered the West Belleville bus line service had to be curif the West Belleville has like arrived had to be out: These Riceas Nonvetibes:

#### WHY MARRIAGES ARE FEWER Francis Gribble in London Sunday Pictorial:

Rightly or wrongly-but for various reasons -th young women of today, with few exceptions, are les

anxious to marry than their mothers were because they have a better time than their mothers had spinsters. They have no need to marry for libert because they are free as air already, and they have no need to marry for the sake of a home because a many careers are open to them and because there are so many residential clubs in which the bachelo girl can take her case and enjoy her independence Taking their case and enjoying their independence in this way —provided also with untransmelled op-portunities of flirtation—they tend to acquire expen nomic and social and are attracted by them. It confirms the girls is precise remedy the belief that only men of assured position who ca possible to the postural mends and not to usual
be needs. In one way or another the prescription will afford to partify these tastes are worthy of them, it
has the fixer formers trainer about one-claim of turn upon a single ingredient. That ingredient will the name time it frighten away retions, not in a

# Dress **Trimmings**

17 mmings have returned to their own. Gay bandings of colored braid, yards of embroidered trimmings in bright colors, with a fur edge, are here to help make dresses and coats—and even hats—more distinct-ive and interesting.

On a black satin dress what could be more effective than trimming embroidered in bright red with a gold thread running through! For a cost there is wise bandler wived colors, with a narrow fur edge on each side. To outline the new Varecks, or he flares on the skirts, or to make the connecting side of the content of the

Narrow braid trimming, in blue, green and henna-5c a yard.
